V. F. W. Make Formal Flag Presentation

Sherwood Asks for Aid in Improvement of "Short Cut"

Arlington Heights Post No. 981, Veterans of Foreign Wars Monday presented to the people of Arlington Heights a new flag for the official flag pole. The presentation which was given in formal form, occurred at the municipal building.

As the veterans entered the hall, Helen Palmer, with her trumpet played "Call to the Colors," followed during the presentation ceremony by "The Star Spangled Banner." The ceremony ended with the playing of "God Bless America." Commander Rudolph Rizzi was in charge and was assisted by Ernst Ninnemann, vice commander; Ed. Allison, junior vice commander; A. C. Wilcox, chaplain.

Mayor Flentie, in behalf of the people of Arlington Heights, accepted the flag, pledging that it would be cared for with the reverence that it deserved, and would be flown on proper occasions. Commander Rizzi in making the presentation, reminded his listeners it is the only flag in the world that has never been humbled.

Request Street Improvement

Nash E. Wood, president of the Sherwood Improvement association, asked the cooperation of the village in correcting present conditions on Center street, the "short cut" between Sherwood subdivision and the highway. Mr. Wood stated that it was the plan of his organization and the subdivider to place a tarvia top on the 400 feet of roadway if the village would provide the proper foundation. He pointed to the fact that there are twenty families now in Sherwood and that there are additional houses under construction or to be built. On motion of trustees Schneberger and Griffith, Milburn Bros. will be asked to give a price for the work. Mr. Wood was accompanied by James E. Wood, vice president and Nat T. Burfeind, secretary.

Andrew Horcher presented a request for remodeling of residence on State road into a flat building. The request was referred to the board of appeals.

The O. K. was given for the payment of $2338 on the new well that is now in process of construction. The well is down to 425 feet.

Bills and payroll totaling $2423 were approved for payment.

Notice was received that the United Motor Coach Co. has filed a petition with the state for the establishment of a bus line from Elgin to Evanston, via. Barrington, and the Northwest highway.

C. & N. W. railroad inquired of the board if it had any objections to the leasing of part of their right of way west of the silos to Geo. C. Poole, Inc., for the parking of cars. The board gave its approval.

Mayor Flentie appointed the following election officials: South precinct, Geo. K. Volz, Leonard Bolte, Glen Benson, George Palmer, Carl Behrens, Jr.; north precinct, Fred Hinz, Les Griffith, August Becker, Harry Greinke, H. G. Peter.

Four Arlington Men Injured in Wisconsin Storm Accident

Four Arlington Heights residents had a taste of the Northwest blizzard Sunday that caused so many deaths in the northwest. The four include Joe Wehner and son, Jack, Arthur Milbratz and Henry Leark. They left Arlington Friday morning to visit friends in Rhinelander, Wis. They started for home at seven o'clock Sunday morning. By nine o'clock, the storm had become so bad that visibility was practically zero. Their car was number four in fifteen that "piled up" at one place. The driver of the first car became stuck in the snow. With no way to signal other cars, the more that traveled over the highway, the greater the number of wrecked autos.

The Arlington Heights people suffered bruises and some cuts. They returned home on the train Monday morning.

Annen Asks for Re-election on Service Record as a Holdover

The voters of Wheeling township will re-elect certain officials to public office on April 1. They have no opposition and those candidates are asking the vote of the public on the service that they have given to the township—a service which few question.

I am asking re-election for exactly the same reason. I have given a similar service in the Wheeling collector's office. For the same reason that you are being asked to vote for the holdovers on the other ticket, I am asking for your vote on April 1.

I have done my best through eight years of tax depression to assist the taxpayers. They are acquainted with that service. As an independent candidate without party packing, I am depending on the votes of those who think and vote independently. A scratched ballot is a mark of independence.

WM. ANNEN,
Candidate for Collector.

Know Your Village --

Wm. Luehring presented some interesting figures to the members of the board of trustees Monday evening in two reports that placed on paper for probably the first time an inventory of the water distribution system of the municipality and a record of exactly how many miles of streets are within the village.

Water service is carried to the different sections of the village through 49 miles of water mains, constructed in the following sizes:

12-in. water mains, 18,000 ft.
10-in. water mains, 19,800 ft.
8-in. water mains, 18,600 ft.
6-in. water mains, 189,550 ft.
4-in. water mains, 29,100 ft.

These mains handle a tremendous amount of water, nearly half a millon gallons a day at certain times of the year. The larger mains encircle the village, insuring ample supply for the smaller mains. All fire hydrants installed in recent years are of the No. 5 type, which has a connection for the booster pump with which both fire fighting engines are equipped.

It would take a good walker sixteen hours to travel over every street within the village of Arlington Heights. And if it was muddy weather, he would have to add several hours to that figure as there are eight miles of unimproved dirt roads where water or sewers have been installed. There are forty-seven miles of roads for the village to maintain out of the regular funds. There are an additional ten miles that are maintained thru the use of gas tax money.

There are fifty miles of paved streets and eight miles of gravel roads within the municipality. Asphalt streets, which were used in the original street improvement total 9½ miles; concrete pavements, exclusive of state highways, total 29½ miles; arterial highways, constructed of both cement and asphalt pavement total ten miles.

Ornamental Street Lights

There are 124 ornamental lights now in operation, fifty-two of them in Stonegate, fifty-eight in Scarsdale and 27 in business section. All electrical maintenance on these lights is done by the Superintendent Luehring and his two assistants, Frank Gieseke and Chas. Hintz.

Monday night was the first time that such a report has been made to local officials. Mr. Luehring explained to the board that it was prepared on his own time.

Mr. Luehring's work takes in many departments. He is familiar with all of them and he is a veritable walking encyclopedia as to "what is what" and "where is it" of the water, sewer and street departments of the village. "Ask 'Bill' he knows," is the frequent expression heard about the municipal plant.

Golfers to Have Their Day

Ernie Simmons, well known amateur golf enthusiast has announced the organization of a twilight golf league, sponsored by business men in Arlington Heights, Mt. Prospect and Des Plaines. Play will be at the Mt. Prospect Country Club.

Each community will have ten business men, each of whom will sponsor a four man team and one alternate.

Among those sponsoring teams in Arlington Heights are: Arlington Heights National Bank, George Poole, Inc., Albert H. Meyer, Inc., Arlington Chevrolet Co., Dreyer Electric Co., Eddie's Castle Bar, Harry H. Knaack Motor Sales, Winkelman's Tire & Battery Shop, Neumann's Barber Shop, Emerald Cleaners & Dyers.

While no action has been taken it is hoped that the Lions club will also enter a team. Several others have indicated their willingness and are expected to make a final decision soon.

Arlington Heights teams will play Tuesday night each week at 6:00 p. m. starting May 6. The tournament will continue for 20 weeks and will be on a strictly handicap basis, throughout the season. This will give each player an even chance regardless of how good he may play.

Arrangements have been completed with the Mt. Prospect country club whereby the cost of play per player will only be 50c per week, 15c of which will be put aside for a final tournament between the champions of each town and a round-up dinner for players and sponsors only. Very little can be learned about this day but if rumor has it correctly the golfers participating should have a good time.

If you play golf, register your name with any of the business men listed above or phone Ernie Simmons, temporary chairman, Arlington Heights 1531. Remember you don't have to be a good golfer and in competition on a handicap basis such as this everyone has a chance.

A few of the trophies are now on display at the Arlington Heights National bank. Stop in and see them, they are worth while.

This paper hopes to complete arrangements to report team and individual standings throughout the entire season.

Mayor Asked to Issue Death Sentence on Dogs

Health Body Urge Dogs be Kept off Streets in Village

There will be no place in Arlington Heights where stray dogs will be safe if village authorities accept the suggestion given to them Monday evening by Paul Collins, representing the local board of health. That body at a recent meeting, officially voted to appraise the village board of the increasing number of dog bites that are being treated by members of the local medical profession, which in their estimation call for some definite action on the part of the authorities.

Mr. Collins urged that if necessary an ordinance be passed requiring that all dogs appearing on streets be either on a leash or wearing a muzzle. "The present situation," stated Mr. Collins, "is a matter of concern to the health department, which is in part responsible for the health of the community."

Alderman Griffith spoke as champion of the dogs, because as he said, "they are unable to speak for themselves." He argued that a year around muzzle - leash rule would be cruel. He was ready to have such a restriction enforced at certain times of the year, but not all of the time. After considerable discussion the board members suggested that the passage of such an ordinance should be left to the new board and that in the interim Mayor Flentie could issue a proclamation ordering police to pick up all stray dogs.

It was the guess of the board members that a large number of the animals are strays.

Dr. E. A. Elfeld Completes 50 Years Service to Humanity

A dinner party at which Dr. and Mrs. E. A. Elfeld, Arlington Heights, were the honored guests Friday night, March 14, marked fifty years of service to humanity that has been given by Dr. Elfeld. It was the exact anniversary date. Thirty-nine years of that half century have been spent in Arlington Heights. The doctor is not retiring from practice. He says that he is taking for himself the same advice he frequently gives to patient, "keep in the harness and you will have many more years of life."

Dr. Elfeld realizes that keeping in the harness means considerable more to a physician than it does to the average business man, who can have regular hours, for sleep, but he says that when he accepted his medical diploma, he accepted it for life.

When Dr. Elfeld started out as a physician he kept a record of the babies he brought into the world, but they either came so fast or his secretary (the wife he won when he was still a medical student), was so busy caring for the doctor that all count of babies was lost. Some of the babies have become mothers and two generations in many families have been brought into the world by this veteran physician, who is even looking forward to a third generation.

The doctor decided to become a physician when only a 12 year old boy. It was a serious illness at that age that brought about the determination. It was not easy. He worked his way thru the Hahnemann College at St. Louis. He started his practice at Portsmouth, Ohio, later going to German Valley, Ill. The city and the opportunity for research work beckoned him and he moved to Chicago. Country life had too great a hold on him, however and in looking for a place in the country he chose Arlington Heights.

The dictor says that he seldom enters his present automobile on a cold winter night that he does not think how much easier a doctor's life is now than when he answered or attempted to answer his calls driving a single cylinder high wheeled Schacht car.

The doctor is as tall and slender today as he was fifty years ago. He has the same sense of humor. His hair is white but his ready smile that won for him the confidence of his patients in those early days, is still with him.

Dr. and Mrs. Elfeld have two children. His daughter, Persis, is a specialist in nervous disorders in Farnhurst, Del. His son, Edward, resides in Peoria, Ill.

It was only by accident that the photographer for Paddock Publications caught the doctor in at his desk in the same chair that he has occupied for so many years as he prescribed and gave advice to so many patients.

Patrol Boys Guests Of Lions Club

Forty patrol boys and girls of Arlington Heights were honored guests at the Lions club regular dinner meeting Tuesday night at the Lutheran school hall. "The lives of 10,000 school children are saved every year in Illinois and Indiana by the school safety patrol," stated Mr. Moore, traffic expert of the Chicago Motor club, speaker of the evening, and it was in recognition of the good work of the local patrols that the Lions "threw a party" for them.

The patrol boys and the Lion members became well acquainted at the dinner table. The boys felt right at home, awed only by the quantity of food that still remained on the table after each had eaten as much as he could.

Retiring to the auditorium, Carl M. Behrens, chairman of the Lions safety committee, addressed the group and complimented them for helping the village to maintain its splendid safety record. He introduced Mr. Moore who also congratulated them and spoke on the three "E's" of accident prevention, enforcement, engineering, and education. Because 85 per cent of traffic fatalities can be traced to human faults rather than highway or automobile construction, the motor club believes that education of drivers is the most important step that can be taken to decrease the fatality rate.

Mr. Moore declared that England, today, for all its aerial attacks, is no more hazardous to life and limb than the United States with its profusion of death dealing automobiles. He also pointed out the fact that most accidents occur when there are comparatively few cars on the road and when the weather and road conditions are perfect — a time when drivers grow careless. His safety talk was directed at the Lions as well as the patrol boys, said Mr. Moore, because the adults are so far behind their children in knowing or obeying the primary safety principles of the automobile driver and the pedestrian.

Colored moving pictures that taught safety lessons, and also of the Chicago Motor club summer camps for outstanding patrol boys were shown. Some 800 boys will be given free accommodations at camp that provide every sport that a young boy can wish for, as well as specialized training in safety work. The boys were shown at last summer's camp, swimming, boating, fishing, playing basketball, volley ball, baseball, and many other things that make a day too short for a youngster. More than one sigh escaped Lion members who wished that there had been safety patrols back in the horse and buggy days.

Political Stories

Stories regarding candidates for township offices appearing in this issue were written by the individual candidates or group interested in their candidacy. This opportunity offered by the Herald to candidates to address the voters through its columns is in line with the policies of this paper to acquaint the voters with the qualifications or platforms of all political groups. The Herald, as a newspaper, is not sponsoring any one candidate.

Regulars Pledge Continuation of Financial Policy

In less than two weeks the Voters of Wheeling Township are called upon to vote for and elect to office a group of public officials to serve them during the ensuing four years.

The majority of the present officials are now candidates for re-election, associated together under the designation of the "Regular Party" Ticket.

With an earnest desire to more efficiently serve the best interests of the citizens of Wheeling township, they have affiliated with themselves a group of men whose proven record of experience and integrity assures the continuance of good government in the township affairs.

For many years the financial affairs of the township were financed by the sale of tax anticipation warrants that could be sold only at a discount of 20% of their face value.

By practicing economy and application of modern business methods to township affairs several thousands of dollars worth of old, outstanding tax warrants have been paid and cancelled, and the township placed upon a CASH "pay as you go" basis, by the present administration.

A modern system of book-keeping and the services of certified public accountants secured to annually audit the books are only two of the major achievements of your present officials.

The township financial affairs are handled by a town board of auditors, composed of the supervisor, justices of the peace and town clerk.

Although the township budget has provided for possible expenditure of $8,000.00 during the past year, your present officials by the installation of sound business methods and the practice of strict economies have kept expenditures within the sum of $5,000.00, representing a saving to the taxpayers of Wheeling township approximating the sum of $3,000.00, or 37½%.

Of these and other accomplishments, the present officials are justly proud, and pledge themselves and their associates to continuation of the most efficient and economical conduct of the business affairs of the township consistent with the best interests of the citizens and taxpayers.

If you play golf, register your name with any of the business men listed above or phone Ernie Simmons, temporary chairman, Arlington Heights 1531. Remember you don't have to be a good golfer and in competition on a handicap basis such as this everyone has a chance.

A few of the trophies are now on display at the Arlington Heights National bank. Stop in and see them, they are worth while.

This paper hopes to complete arrangements to report team and individual standings throughout the entire season.

Mayor Asked to Issue Death Sentence on Dogs

Health Body Urge Dogs be Kept off Streets in Village

There will be no place in Arlington Heights where stray dogs will be safe if village authorities accept the suggestion given to them Monday evening by Paul Collins, representing the local board of health. That body at a recent meeting, officially voted to appraise the village board of the increasing number of dog bites that are being treated by members of the local medical profession, which in their estimation call for some definite action on the part of the authorities.

Mr. Collins urged that if necessary an ordinance be passed requiring that all dogs appearing on streets be either on a leash or wearing a muzzle. "The present situation," stated Mr. Collins, "is a matter of concern to the health department, which is in part responsible for the health of the community."

Alderman Griffith spoke as champion of the dogs, because as he said, "they are unable to speak for themselves." He argued that a year around muzzle - leash rule would be cruel. He was ready to have such a restriction enforced at certain times of the year, but not all of the time. After considerable discussion the board members suggested that the passage of such an ordinance should be left to the new board and that in the interim Mayor Flentie could issue a proclamation ordering police to pick up all stray dogs.

It was the guess of the board members that a large number of the animals are strays.

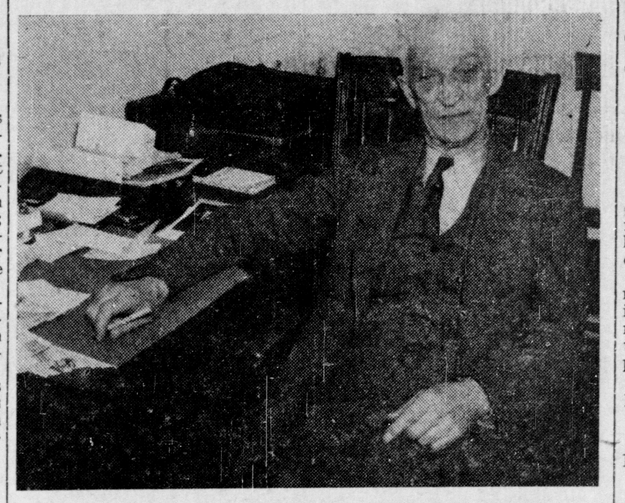
Dr. E. A. Elfeld Completes 50 Years Service to Humanity



A dinner party at which Dr. and Mrs. E. A. Elfeld, Arlington Heights, were the honored guests Friday night, March 14, marked fifty years of service to humanity that has been given by Dr. Elfeld. It was the exact anniversary date. Thirty-nine years of that half century have been spent in Arlington Heights. The doctor is not retiring from practice. He says that he is taking for himself the same advice he frequently gives to patient, "keep in the harness and you will have many more years of life."

Dr. Elfeld realizes that keeping in the harness means considerable more to a physician than it does to the average business man, who can have regular hours, for sleep, but he says that when he accepted his medical diploma, he accepted it for life.

When Dr. Elfeld started out as a physician he kept a record of the babies he brought into the world, but they either came so fast or his secretary (the wife he won when he was still a medical student), was so busy caring for the doctor that all count of babies was lost. Some of the babies have become mothers and two generations in many families have been brought into the world by this veteran physician, who is even looking forward to a third generation.

The doctor decided to become a physician when only a 12 year old boy. It was a serious illness at that age that brought about the determination. It was not easy. He worked his way thru the Hahnemann College at St. Louis. He started his practice at Portsmouth, Ohio, later going to German Valley, Ill. The city and the opportunity for research work beckoned him and he moved to Chicago. Country life had too great a hold on him, however and in looking for a place in the country he chose Arlington Heights.

The dictor says that he seldom enters his present automobile on a cold winter night that he does not think how much easier a doctor's life is now than when he answered or attempted to answer his calls driving a single cylinder high wheeled Schacht car.

The doctor is as tall and slender today as he was fifty years ago. He has the same sense of humor. His hair is white but his ready smile that won for him the confidence of his patients in those early days, is still with him.

Dr. and Mrs. Elfeld have two children. His daughter, Persis, is a specialist in nervous disorders in Farnhurst, Del. His son, Edward, resides in Peoria, Ill.

It was only by accident that the photographer for Paddock Publications caught the doctor in at his desk in the same chair that he has occupied for so many years as he prescribed and gave advice to so many patients.

Patrol Boys Guests Of Lions Club

Forty patrol boys and girls of Arlington Heights were honored guests at the Lions club regular dinner meeting Tuesday night at the Lutheran school hall. "The lives of 10,000 school children are saved every year in Illinois and Indiana by the school safety patrol," stated Mr. Moore, traffic expert of the Chicago Motor club, speaker of the evening, and it was in recognition of the good work of the local patrols that the Lions "threw a party" for them.

The patrol boys and the Lion members became well acquainted at the dinner table. The boys felt right at home, awed only by the quantity of food that still remained on the table after each had eaten as much as he could.

Retiring to the auditorium, Carl M. Behrens, chairman of the Lions safety committee, addressed the group and complimented them for helping the village to maintain its splendid safety record. He introduced Mr. Moore who also congratulated them and spoke on the three "E's" of accident prevention, enforcement, engineering, and education. Because 85 per cent of traffic fatalities can be traced to human faults rather than highway or automobile construction, the motor club believes that education of drivers is the most important step that can be taken to decrease the fatality rate.

Mr. Moore declared that England, today, for all its aerial attacks, is no more hazardous to life and limb than the United States with its profusion of death dealing automobiles. He also pointed out the fact that most accidents occur when there are comparatively few cars on the road and when the weather and road conditions are perfect — a time when drivers grow careless. His safety talk was directed at the Lions as well as the patrol boys, said Mr. Moore, because the adults are so far behind their children in knowing or obeying the primary safety principles of the automobile driver and the pedestrian.

Colored moving pictures that taught safety lessons, and also of the Chicago Motor club summer camps for outstanding patrol boys were shown. Some 800 boys will be given free accommodations at camp that provide every sport that a young boy can wish for, as well as specialized training in safety work. The boys were shown at last summer's camp, swimming, boating, fishing, playing basketball, volley ball, baseball, and many other things that make a day too short for a youngster. More than one sigh escaped Lion members who wished that there had been safety patrols back in the horse and buggy days.

Political Stories

Stories regarding candidates for township offices appearing in this issue were written by the individual candidates or group interested in their candidacy. This opportunity offered by the Herald to candidates to address the voters through its columns is in line with the policies of this paper to acquaint the voters with the qualifications or platforms of all political groups. The Herald, as a newspaper, is not sponsoring any one candidate.

Regulars Pledge Continuation of Financial Policy

In less than two weeks the Voters of Wheeling Township are called upon to vote for and elect to office a group of public officials to serve them during the ensuing four years.

The majority of the present officials are now candidates for re-election, associated together under the designation of the "Regular Party" Ticket.

With an earnest desire to more efficiently serve the best interests of the citizens of Wheeling township, they have affiliated with themselves a group of men whose proven record of experience and integrity assures the continuance of good government in the township affairs.

For many years the financial affairs of the township were financed by the sale of tax anticipation warrants that could be sold only at a discount of 20% of their face value.

By practicing economy and application of modern business methods to township affairs several thousands of dollars worth of old, outstanding tax warrants have been paid and cancelled, and the township placed upon a CASH "pay as you go" basis, by the present administration.

A modern system of book-keeping and the services of certified public accountants secured to annually audit the books are only two of the major achievements of your present officials.

The township financial affairs are handled by a town board of auditors, composed of the supervisor, justices of the peace and town clerk.

Although the township budget has provided for possible expenditure of $8,000.00 during the past year, your present officials by the installation of sound business methods and the practice of strict economies have kept expenditures within the sum of $5,000.00, representing a saving to the taxpayers of Wheeling township approximating the sum of $3,000.00, or 37½%.

Of these and other accomplishments, the present officials are justly proud, and pledge themselves and their associates to continuation of the most efficient and economical conduct of the business affairs of the township consistent with the best interests of the citizens and taxpayers.

Times of unprecedented sacrifices for all of us are rapidly approaching: Sacrifices for the sake of national defense and the security of our homes, for the sake of besieged and attacked democracies. May we not forget God in the midst of this turmoil, but may we learn to sacrifice that the religious bulwark of our civilization may not collapse. Don't look at the other fellow . . . this applies to you, and upon you will rest the grave responsibilities of this crisis! Those who do not attend and support the churches of God, must obviously be classified among those who are disinteredested in the security of their children's future. If the church falls we don't have anything worth saving!

CHRISTIAN SCIENCE CHURCHES

"Substance" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 16.

The Golden Text was, "For ever, O Lord, thy word is settled, in heaven. Thy faithfulness is unto all generations" (Psalms 119:89, 90).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all. Both riches and honor come of thee, and thou reignest over all; and in thine hand is power and might; and in thine hand it is to make great, and to give strength unto all" (I Chronicles 29:11, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit, God, has created all in and of Himself. Spirit never created matter. There is nothing in Spirit out of which matter could be made, for, as the Bible declares, without the Logos, the Aeon or Word of God, 'was not anything made that was made.' Spirit is the only substance, the invisible and indivisible infinite God. Things spiritual and eternal are substantial. Things material and temporal are insubstantial" (p. 335).

Faith in Christ is Remedy for Suicidal Thoughts, Says Maier

Pointing out that the number of suicides in the United States almost equals that of Japan, where "hari-kari" is often looked upon as an honorable end to trouble and disgrace, Dr. Walter A. Maier of Concordia Seminary declared in his Lutheran Hour broadcast Sunday that a firmly grounded personal faith in Christ is the remedy for suicidal thoughts.

The theologian rejected the theory that education is the best preventive of self-destruction, pointing out that intellectual leaders and university graduates are all too frequently numbered among those who take their own lives.

Dr. Maier warned against many forms of betrayal which, he said, so often accompany war. Profiteering in the lives of men, he declared, is no less reprehensible than the profiteering of Judas, "history's most damnable Fifth Columnist." The betrayal of Christianity is likewise to be guarded against. According to the radio evangelist, who asserted the same principles involved in Christ's betrayal are represented in the activities of Bible-ridiculing clerics today.

"Let us bring to the masses in America," he concluded, "the message of Christ's atoning love. Let us better understand our Christian obligation to one another—that we may recognize true repentance not merely as remorse for a committed wrong, but a spirit of restitution plus a sincere faith in Christ and His grace and mercy."

8 W. St. James St. Tel. 99-M

Sunday service:

10 a. m. Church school. M. W. Prellberg, Superintendent; J. Everett, Assistant Superintendent; A. L. Ashcraft, Secretary. Is it worth the sacrifice of the "Sunday morning loaf" to provide your family with the character building experience of worship and religious instruction? Do you think so little of your family that you sacrifice them in selfish comforts?

11 a. m. Divine worship. Director of Music, J. Everett; organist, Mrs. R. H. Manley; Assistant Organist, Mrs. J. McElhose. Worshipful music and inspirational message at each service. If possible, Rev. Schellhase will return to the pulpit speaking on "The Will of Gethsemane." Attend the worship services during Lent.

7 p. m. Epworth League. Devotional service in the Chapel.

Calendar

Thursday, March 20, at 8 p. m. Choir rehearsal in the Sanctuary with Mr. Everett directing.

Monday, March 24, Regular meeting of the Church school board.

Tuesday, March 25, at 8 p. m., regular meeting of the Fidelis Circle.

Wednesday, March 26, at 6:30 p. m., Lenten Fellowship Supper in the Dining Hall. Dr. John M. Schneider, Superintendent of the Chicago-Western District and formerly the Pastor of prominent Chicagoland churches, will bring the evening address. Dr. Schneider is noted for his fine messages, and we especially urge your attendance at this and the remaining Lenten Suppers.

Times of unprecedented sacrifices for all of us are rapidly approaching: Sacrifices for the sake of national defense and the security of our homes, for the sake of besieged and attacked democracies. May we not forget God in the midst of this turmoil, but may we learn to sacrifice that the religious bulwark of our civilization may not collapse. Don't look at the other fellow . . . this applies to you, and upon you will rest the grave responsibilities of this crisis! Those who do not attend and support the churches of God, must obviously be classified among those who are disinteredested in the security of their children's future. If the church falls we don't have anything worth saving!

CHRISTIAN SCIENCE CHURCHES

"Substance" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 16.

The Golden Text was, "For ever, O Lord, thy word is settled, in heaven. Thy faithfulness is unto all generations" (Psalms 119:89, 90).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all. Both riches and honor come of thee, and thou reignest over all; and in thine hand is power and might; and in thine hand it is to make great, and to give strength unto all" (I Chronicles 29:11, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit, God, has created all in and of Himself. Spirit never created matter. There is nothing in Spirit out of which matter could be made, for, as the Bible declares, without the Logos, the Aeon or Word of God, 'was not anything made that was made.' Spirit is the only substance, the invisible and indivisible infinite God. Things spiritual and eternal are substantial. Things material and temporal are insubstantial" (p. 335).

Prayer meeting every Thursday evening at 8 o'clock in the Foxworthy home on McDonald rd. Everybody welcome.

Faith in Christ is Remedy for Suicidal Thoughts, Says Maier

Pointing out that the number of suicides in the United States almost equals that of Japan, where "hari-kari" is often looked upon as an honorable end to trouble and disgrace, Dr. Walter A. Maier of Concordia Seminary declared in his Lutheran Hour broadcast Sunday that a firmly grounded personal faith in Christ is the remedy for suicidal thoughts.

The theologian rejected the theory that education is the best preventive of self-destruction, pointing out that intellectual leaders and university graduates are all too frequently numbered among those who take their own lives.

Dr. Maier warned against many forms of betrayal which, he said, so often accompany war. Profiteering in the lives of men, he declared, is no less reprehensible than the profiteering of Judas, "history's most damnable Fifth Columnist." The betrayal of Christianity is likewise to be guarded against, according to the radio evangelist, who asserted the same principles involved in Christ's betrayal are represented in the activities of Bible-ridiculing clerics today.

"Let us bring to the masses in America," he concluded, "the message of Christ's atoning love. Let us better understand our Christian obligation to one another—that we may recognize true repentance not merely as remorse for a committed wrong, but a spirit of restitution plus a sincere faith in Christ and His grace and mercy."

IN MEMORIAM

In fond remembrance of our loving mother, Mrs. Augusta Luehring, who left us three years ago, March 25, 1938:

Forget you Mom, we never will
We loved you then, we love you still.
It was bitter pain, a shock severe,
To part with a Mom, we loved so dear.

Loving Children.

Heart Happenings

By C. W. Lussman

Of Sieburg Pharmacy

What happens when you run up a flight of stairs?

What happens when you become excited? What happens to your heart under any kind of stress?

The heart tells the story of your actual physical welfare. Under the stethoscope, or the more accurate electric cardiogram, it is possible for your doctor to read your heart happenings and prescribe a regimen of living, giving you added years of life.

Do not postpone that physical check-up which you have been postponing to a more convenient time.

Medication, if ordered by your physician, must be compounded by a skilled, trained druggist in order to produce satisfactory results.

Girls' Sextet is Popular Group at Arlington High School

A popular vocal group at the high school this year has been the girls sextet, composed of Marian Hardtke, Mary Ann Eiler, Virginia Gould, Lois Bokelmann, Irene Verrett, and Marie Jackisch with Marge Moodie as accompanist. This organization has appeared on a number of civic programs and has been well received.

The following girls have been added recently to the sextet, in preparation for several spring programs, including the Arlington P.-T.A. and a Sunday evening church service in Mt. Prospect March 23: Virginia Warner, Ruth Studtman, Ruth Jackisch, Ellen Wagner, Ruth Swift, Bernett Carlson, and Pat Groves.

Trumpet solos by Frank Freyermuth, clarinet solos by Ray Atkinson, and numbers by a trio composed of Jim Scott, Mr. Costain and Ray Atkinson, are to be used as part of the P.-T.A. and Presbyterian Men's club's programs.

An emblem honor award is given to all instrumentalists who play solos before the band during rehearsals, which has encouraged extra practice, and has resulted in the growth of self-confidence and better musicianship for the large number of students who have volunteered to play a solo.

All activity of the larger vocal and instrumental groups is pointed toward the annual spring concert which will be given May 2 in the school auditorium.

St. Ann Club Honors Founder at St. Patrick Party

The St. Ann club was royally entertained on their regular meeting night Thursday, March 13, in the home of Mr. and Mrs. Clarence Weber, 312 N. Haddow ave.

Mrs. Ed. Coy, founder of the club, was guest of honor and the occasion was also her birthday. Upon entering the Weber home Mrs. Coy was pleasantly surprised and greeted by the birthday song by the members and their husbands.

Cards were the order of the evening at which high award went to Barbara Brehm, second to Margaret Dreschel and consolation to Ida B. Sieburg.

After cards, a bountiful supper was served. In the name of St. Patrick, could be seen, the shamrocks, the pipes and the wearin' of the green. The centerpiece, cleverly representing a decorated birthday cake revealed an assortment of gifts and greeting cards to add joy for the birthday child.

Nor is this the only "double feature" for this club. Last meeting on Feb. 13, they met at the home of Ida B. Sieburg, 112 N. Pine ave., who had eclipsed her birthday to favor St. Valentine on the coming day, and served typically Valentine refreshments amid bobbing hearts and cupid's darts.

Paddock Publications Offer Tickets to Brides For National Home Show

No one likes to look at new housing ideas more than the new bride or bride-to-be, and Paddock Publications are again offering complimentary tickets to the National House and Garden Exposition to betrothed couples. "Chicago's 6th annual home show" will be held at the Coliseum, April 19-27.

Many young couples took advantage of the offer last year and reported that they had obtained valuable ideas in connection with decorating their homes. All that this newspaper asks is that names and address of the bride be mailed to the publication office on or before April 4 so that ample tickets may be secured. It makes no difference whether the bride is of several months standing, or if the date for the wedding has not yet been set, all will have equal opportunity.

Heart Happenings

By C. W. Lussman
Of Sieburg Pharmacy

What happens when you run up a flight of stairs?

What happens when you become excited? What happens to your heart under any kind of stress?

The heart tells the story of your actual physical welfare. Under the stethoscope, or the more accurate electric cardiogram, it is possible for your doctor to read your heart happenings and prescribe a regimen of living, giving you added years of life.

Do not postpone that physical check-up which you have been postponing to a more convenient time.

Medication, if ordered by your physician, must be compounded by a skilled, trained druggist in order to produce satisfactory results.

Girls' Sextet is Popular Group at Arlington High School

A popular vocal group at the high school this year has been the girls sextet, composed of Marian Hardtke, Mary Ann Eiler, Virginia Gould, Lois Bokelmann, Irene Verrett, and Marie Jackisch with Marge Moodie as accompanist. This organization has appeared on a number of civic programs and has been well received.

The following girls have been added recently to the sextet, in preparation for several spring programs, including the Arlington P.-T.A. and a Sunday evening church service in Mt. Prospect March 23: Virginia Warner, Ruth Studtman, Ruth Jackisch, Ellen Wagner, Ruth Swift, Bernett Carlson, and Pat Groves.

Trumpet solos by Frank Freyermuth, clarinet solos by Ray Atkinson, and numbers by a trio composed of Jim Scott, Mr. Costain and Ray Atkinson, are to be used as part of the P.-T.A. and Presbyterian Men's club's programs.

An emblem honor award is given to all instrumentalists who play solos before the band during rehearsals, which has encouraged extra practice, and has resulted in the growth of self-confidence and better musicianship for the large number of students who have volunteered to play a solo.

All activity of the larger vocal and instrumental groups is pointed toward the annual spring concert which will be given May 2 in the school auditorium.

St. Ann Club Honors Founder at St. Patrick Party

The St. Ann club was royally entertained on their regular meeting night Thursday, March 13, in the home of Mr. and Mrs. Clarence Weber, 312 N. Haddow ave.

Mrs. Ed. Coy, founder of the club, was guest of honor and the occasion was also her birthday. Upon entering the Weber home Mrs. Coy was pleasantly surprised and greeted by the birthday song by the members and their husbands.

Cards were the order of the evening at which high award went to Barbara Brehm, second to Margaret Dreschel and consolation to Ida B. Sieburg.

After cards, a bountiful supper was served. In the name of St. Patrick, could be seen, the shamrocks, the pipes and the wearin' of the green. The centerpiece, cleverly representing a decorated birthday cake revealed an assortment of gifts and greeting cards to add joy for the birthday child.

Nor is this the only "double feature" for this club. Last meeting on Feb. 13, they met at the home of Ida B. Sieburg, 112 N. Pine ave., who had eclipsed her birthday to favor St. Valentine on the coming day, and served typically Valentine refreshments amid bobbing hearts and cupid's darts.

Paddock Publications Offer Tickets to Brides For National Home Show

No one likes to look at new housing ideas more than the new bride or bride-to-be, and Paddock Publications are again offering complimentary tickets to the National House and Garden Exposition to betrothed couples. "Chicago's 6th annual home show" will be held at the Coliseum, April 19-27.

Many young couples took advantage of the offer last year and reported that they had obtained valuable ideas in connection with decorating their homes. All that this newspaper asks is that names and address of the bride be mailed to the publication office on or before April 4 so that ample tickets may be secured. It makes no difference whether the bride is of several months standing, or if the date for the wedding has not yet been set, all will have equal opportunity.

Music News And Views

by ELMER D. HERRICK

If you will pick up a copy of recent sheet music (not BMI) and look at the bottom of page three or five you will probably see a warning, followed by several lines of small type. Most people I talk to have never noticed it, but it carries dynamite.

Briefly, it warns that anyone copying the words or music of a copyrighted song for purposes of profit is infringing on the copyright law and is liable to fine and imprisonment. During recent years this law has been enforced more strictly than ever but in spite of it, there have been an increasing number of violations.

A pupil who copies a song or the words of a song for his own use is technically guilty (the publisher argues that every copy copied is one less copy he can sell) but actually nothing can be done about it. The greatest number of infringements, and I know of several between Arlington and Park Ridge, are made by teachers who write out arrangements of popular tunes for various instruments and give them to their pupils as lesson material. This makes them liable because they are paid for the lesson and the lesson payment also includes payment for any music given with it. If your teacher is giving you this kind of music, in all fairness to him, let him read this article or tell him about it because he may not even be aware of his violation.

It looks like the BMI-ASCAP feud was entering its final phase with BMI coming out on top. The department of Justice obtained a $35,000 judgment against ASCAP last week on the charge of holding a monopoly and this settlement clears the way to new contracts with NBC and CBS. It is interesting to note that since the feud began, nearly 40% of the people I talked with were not even aware that ASCAP songs had been taken off the air!; and of the remaining 60%, not more than 10% actually knew what the fight was all about. Most people thought BMI was trying to pull a fast one some how and so their sympathies were with ASCAP.

Alice Ortegel, Betty Graff and Ruth Schmidt all of Wheeling, have organized an accordion trio to play for the guitar-accordion concert in Park Ridge this spring. Alice and Betty, who are buddies at the Wheeling grammar school, play for school programs quite frequently.

Joy Ann Williams, in Palatine, also performs with her Hawaiian guitar on various school programs. Joan Ward is another Palatine enthusiast who is becoming very proficient. The two know each other quite well and there is considerable rivalry between them.

MUSIC NEWS AND VIEWS

by ELMER D. HERRICK

If you will pick up a copy of recent sheet music (not BMI) and look at the bottom of page three or five you will probably see a warning, followed by several lines of small type. Most people I talk to have never noticed it, but it carries dynamite.

Briefly, it warns that anyone copying the words or music of a copyrighted song for purposes of profit is infringing on the copyright law and is liable to fine and imprisonment. During recent years this law has been enforced more strictly than ever but in spite of it, there have been an increasing number of violations.

A pupil who copies a song or the words of a song for his own use is technically guilty (the publisher argues that every copy copied is one less copy he can sell) but actually nothing can be done about it. The greatest number of infringements, and I know of several between Arlington and Park Ridge, are made by teachers who write out arrangements of popular tunes for various instruments and give them to their pupils as lesson material. This makes them liable because they are paid for the lesson and the lesson payment also includes payment for any music given with it. If your teacher is giving you this kind of music, in all fairness to him, let him read this article or tell him about it because he may not even be aware of his violation.

It looks like the BMI-ASCAP feud was entering its final phase with BMI coming out on top. The department of Justice obtained a $35,000 judgment against ASCAP last week on the charge of holding a monopoly and this settlement clears the way to new contracts with NBC and CBS. It is interesting to note that since the feud began, nearly 40% of the people I talked with were not even aware that ASCAP songs had been taken off the air!; and of the remaining 60%, not more than 10% actually knew what the fight was all about. Most people thought BMI was trying to pull a fast one some how and so their sympathies were with ASCAP.

Alice Ortegel, Betty Graff and Ruth Schmidt all of Wheeling, have organized an accordion trio to play for the guitar-accordion concert in Park Ridge this spring. Alice and Betty, who are buddies at the Wheeling grammar school, play for school programs quite frequently.

Joy Ann Williams, in Palatine, also performs with her Hawaiian guitar on various school programs. Joan Ward is another Palatine enthusiast who is becoming very proficient. The two know each other quite well and there is considerable rivalry between them.

Arlington OES Celebrates Birthday, Past Officers' Night

A delicious dinner preceded the meeting Thursday evening, March 13, of the Arlington Heights chapter of O. E. S., when over one hundred enjoyed a hostess party with members and their families. The tables were decorated in green and white with a special table for the guest officers who each received a lovely token from the chapter and also from the worthy matron. At 8 p. m. the regular meeting took place when the eleventh birthday and past officers night was celebrated bringing back many pleasant memories of days gone by.

The junior past matron and patron, Inez M. Ihle and Irving J. Tesch, were escorted to the east by those who had served them as officers last year. Each was presented with a gift from their officers as well as flowers and gift from their chapter. A fraternal welcome was accorded them in the east by the worthy matron and patron, Florence Luckner and Raoul H. Peeters and then greeted in song by the soloist.

Those serving in other stations as guests were: associate matron, Lydia Hausam; associate patron, George K. Volz; secretary, Marie C. Muller; treasurer, Elmer Crane; conductress, Myrtle L. Frey; associate conductress, Celia Hausam; chaplain, Maybelle C. Jasper; marshal, Georgiana Pankonin; organist, Delia Krueger of Palatine; Adah, Grace Truck; Ruth, Alma Tesch; Esther, Mary Meyer; Martha, Carla Ehret; Electa, Irene Hauff; warder, Emma Laurin; sentinel, Frank Hausam; soloist, Geraldine Smith, A. C. of Palatine.

Gussie Jiencke, Jr., past matron of Des Plaines chapter was the guest of honor. She was presented with flowers and a greeting by the soloist. Several members from neighboring chapters were present. Many charter members were present and escorted to the east. A loving tribute was paid to the memory of Sallie A. Volz, who with her good husband, George K., were both instrumental in the formation of this chapter. A beautiful floral spray was placed on the altar which was later given to the family to be placed upon her grave.

A silent prayer was also offered to the memory of one of the past patrons, Walter H. Dick, who served the chapter in 1938.

The regular order of business followed after which the chapter was favored with interesting remarks by the guests in the east. Individual birthday cakes with green candles and coffee were served in the dining room and a social time enjoyed by all, thus ending another memorable event in the history of this chapter.

News of Springfield

by

Bernice T. Van der Vries
Representative, 7th District
General Assembly of Illinois

When the Indiana legislature closed its session last week after completing a far-reaching legislative program, many members of the Illinois General Assembly wondered how it could be done in sixty days.

Probably the secret behind the work of the Indiana legislature is the fact that in Indiana and other states with limited sessions, the members remain on the job thruout the week. In Illinois, despite the pleading of the Speaker of the House that members remain on Thursday so that bills on the calendar on third reading (roll call stage) may be taken care of, only fifty-five out of 153 members on Wednesday signified their intention of remaining. The Speaker then announced that there would be a session on Thursday with only routine matters would be taken care of. There were only about twenty-five who remained while bills were introduced, committee reports submitted and first reading bills advanced to second reading.

Defines Successful Session

Lest my readers think that a successful session is one in which a great many bills are passed, may I emphasize that a successful session is one in which, in my opinion, a great many bills are defeated. Manifestly there must be a distinction between good and bad bills and that is a personal matter between the legislator and his conscience.

No bills of importance to the Seventh district passed the House this week. In the Senate the bill which would set up a State Defense council for Illinois passed and was sent to the House. The Defense council, according to the bill, would create a board of nine members to be appointed by the Governor. Members should be chosen who have special knowledge of industry, labor, agriculture, education, health, welfare and consumer problems. No salaries will be paid. The council shall cooperate with the National Council of Defense, cooperate with councils in other states and organize local defense councils.

Labor Legislation

The greatest interest at the present time is the labor legislation embodied in the Wages and Hours bills which have been introduced. The bills were referred to a sub-committee in the House. When it was discovered that all of the members of the sub-committee were friendly to Labor, and that no members represented Chicago, industrial center of the state, such a protest was made by the industries affected that next week an effort will be made in the Industrial Affairs committee to have two more members added to the sub-committee. Members of women's organizations which are attempting to have women executives removed from the provisions of the Women's Eight Hour law are watching with interest, also, the Wages and Hours bills which would place men and women in industry on the same basis.

Sixteen bills were reported out of the Efficiency and Economy committee on Tuesday, all on the subject of American citizenship. They provide that the professions of medicine, dentistry, pharmacy, nursing, optometry, chiropody, barbering, beauty culture, veterinary, architects, horseshoeing, insurance, brokerage, real estate and positions in departments of state government must require American citizenship for licenses. At the present time only a declaration of intention to become a citizen is necessary.

Next week the St. Patrick dinner, the main social event of the legislative season, will be held Tuesday, and Wednesday Governor and Mrs. Green complete the last of the General Assembly dinners when members of the House whose names run in the alphabet from S. through Z. will be entertained.

Radio Movin' Day Set for March 29; 90 Pct. Change Dial Spots

March 29 will be Radio Movin' Day throughout the nation when 90 per cent of all broadcast stations will have a new spot on the dial. Of 883 broadcasters in the country, 795 are scheduled to change.

The governments of the United States, Canada, Mexico, Cuba and Haiti have been planning this reallocation for three years. It will bring better reception of programs and eliminate interference from stations broadcasting from outside the United States.

Persons with manual tuning radios will simply tune in WLS at 890 and other stations at their new places on the dial, but those owning push-button tuning radios will have to have the buttons reset. There are ten million push button sets in use in the United States.

Gain in Pea Acreage

While the increase in United States acreage is about 25 per cent, the acreage of green peas for canning in Wisconsin, the nation's leading producer of this crop, will be about 40 per cent, according to the Crop Reporting service of the Wisconsin and United States department of agriculture.

The junior past matron and patron, Inez M. Ihle and Irving J. Tesch, were escorted to the east by those who had served them as officers last year. Each was presented with a gift from their officers as well as flowers and gift from their chapter. A fraternal welcome was accorded them in the east by the worthy matron and patron, Florence Luckner and Raoul H. Peeters and then greeted in song by the soloist.

Those serving in other stations as guests were: associate matron, Lydia Hausam; associate patron, George K. Volz; secretary, Marie C. Muller; treasurer, Elmer Crane; conductress, Myrtle L. Frey; associate conductress, Celia Hausam; chaplain, Maybelle C. Jasper; marshal, Georgiana Pankonin; organist, Delia Krueger of Palatine; Adah, Grace Truck; Ruth, Alma Tesch; Esther, Mary Meyer; Martha, Carla Ehret; Electa, Irene Hauff; warder, Emma Laurin; sentinel, Frank Hausam; soloist, Geraldine Smith, A. C. of Palatine.

Gussie Jiencke, Jr., past matron of Des Plaines chapter was the guest of honor. She was presented with flowers and a greeting by the soloist. Several members from neighboring chapters were present. Many charter members were present and escorted to the east. A loving tribute was paid to the memory of Sallie A. Volz, who with her good husband, George K., were both instrumental in the formation of this chapter. A beautiful floral spray was placed on the altar which was later given to the family to be placed upon her grave.

A silent prayer was also offered to the memory of one of the past patrons, Walter H. Dick, who served the chapter in 1938.

The regular order of business followed after which the chapter was favored with interesting remarks by the guests in the east. Individual birthday cakes with green candles and coffee were served in the dining room and a social time enjoyed by all, thus ending another memorable event in the history of this chapter.

News of Springfield

by
Bernice T. Van der Vries
Representative, 7th District
General Assembly of Illinois

When the Indiana legislature closed its session last week after completing a far-reaching legislative program, many members of the Illinois General Assembly wondered how it could be done in sixty days.

Probably the secret behind the work of the Indiana legislature is the fact that in Indiana and other states with limited sessions, the members remain on the job thruout the week. In Illinois, despite the pleading of the Speaker of the House that members remain on Thursday so that bills on the calendar on third reading (roll call stage) may be taken care of, only fifty-five out of 153 members on Wednesday signified their intention of remaining. The Speaker then announced that there would be a session on Thursday with only routine matters would be taken care of. There were only about twenty-five who remained while bills were introduced, committee reports submitted and first reading bills advanced to second reading.

Defines Successful Session

Lest my readers think that a successful session is one in which a great many bills are passed, may I emphasize that a successful session is one in which, in my opinion, a great many bills are defeated. Manifestly there must be a distinction between good and bad bills and that is a personal matter between the legislator and his conscience.

No bills of importance to the Seventh district passed the House this week. In the Senate the bill which would set up a State Defense council for Illinois passed and was sent to the House. The Defense council, according to the bill, would create a board of nine members to be appointed by the Governor. Members should be chosen who have special knowledge of industry, labor, agriculture, education, health, welfare and consumer problems. No salaries will be paid. The council shall cooperate with the National Council of Defense, cooperate with councils in other states and organize local defense councils.

Labor Legislation

The greatest interest at the present time is the labor legislation embodied in the Wages and Hours bills which have been introduced. The bills were referred to a sub-committee in the House. When it was discovered that all of the members of the sub-committee were friendly to Labor, and that no members represented Chicago, industrial center of the state, such a protest was made by the industries affected that next week an effort will be made in the Industrial Affairs committee to have two more members added to the subcommittee. Members of women's organizations which are attempting to have women executives removed from the provisions of the Women's Eight Hour law are watching with interest, also, the Wages and Hours bills which would place men and women in industry on the same basis.

Sixteen bills were reported out of the Efficiency and Economy committee on Tuesday, all on the subject of American citizenship. They provide that the professions of medicine, dentistry, pharmacy, nursing, optometry, chiropody, barbering, beauty culture, veterinary, architects, horseshoeing, insurance, brokerage, real estate and positions in departments of state government must require American citizenship for licenses. At the present time only a declaration of intention to become a citizen is necessary.

Next week the St. Patrick dinner, the main social event of the legislative season, will be held Tuesday, and Wednesday Governor and Mrs. Green complete the last of the General Assembly dinners when members of the House whose names run in the alphabet from S. through Z. will be entertained.

Radio Movin' Day Set for March 29; 90 Pct. Change Dial Spots

March 29 will be Radio Movin' Day throughout the nation when 90 per cent of all broadcast stations will have a new spot on the dial. Of 883 broadcasters in the country, 795 are scheduled to change.

The governments of the United States, Canada, Mexico, Cuba and Haiti have been planning this reallocation for three years. It will bring better reception of programs and eliminate interference from stations broadcasting from outside the United States.

Persons with manual tuning radios will simply tune in WLS at 890 and other stations at their new places on the dial, but those owning push-button tuning radios will have to have the buttons reset. There are ten million push button sets in use in the United States.

Gain in Pea Acreage

While the increase in United States acreage is about 25 per cent, the acreage of green peas for canning in Wisconsin, the nation's leading producer of this crop, will be about 40 per cent, according to the Crop Reporting service of the Wisconsin and United States department of agriculture.

News items for this department should be mailed not later than Monday to Arlene Nagel, publicity chairman, 804 N. Douglas St., Arlington Heights.

About forty-five of the "Ole Faithfuls" braved the severe wind and extreme cold last Sunday to attend the lecture at Bensenville given by Prof. Bruening on "Music Appreciation." He played a number of records on the church liturgy and numerous church chorales and then told of the interesting history of each.

How many of you are planning on entering the Talent Festival this year? The Zone Cultural Activites chairman and his committee are making arrangements for a pre-Talent Festival evening for April 27 at Park Ridge. Each society should have at least two people entered if not more. Everyone of us has been blessed with some talent, and it isn't vain to want to exhibit that talent in our Lutheran circles or to compete with other Leaguers. Each zone member will receive more detailed information one of these days now, so heed the invitation and help to make the program on the 27th a fine display of art. We could name several of you right now who has "hidden talents" that would be very much enjoyed by our audience.

The Norwood Park society had a meeting Monday to make definite plans for the spring rally which will be held there May 4. Let's make plans to make this one of our largest and finest rallies. Norwood Park can do the arranging and inviting but the rest of us must accept that invitation and cooperate by being there. In comparison with other zone rallies, we have one of the smallest groups at our rallies, in ratio with our membership, that is. Why is it? There must be some reason for this which must be unearthed before this condition can be corrected. But we have plenty of time to talk "rally" after the pre-Talent Festival is a happy memory so let's concentrate on it.

This Friday (21) the L.I.L. of Arlington is sponsoring a sound picture "Crown of Thorns" which is a very descriptive and gripping picture of Christ's birth, life, passion, and ascension. Everyone of us should want to see this story; especially is it appropriate at this time. Tickets are 25c for adults and 15c for children. Everyone is invited.

This Tuesday (18) Arlington seniors had another Etiquette meeting—this time on "dating." Everyone joined in the discussion, and I'm sure everyone learned points which should make us better companions in a Christian-like manner.

American Legion Auxiliary Notes

Mrs. John Peroutka, activities chairman, planned a "Come As You Are Breakfast" so long ago, that it was forgotten, but members had it brought to their mind suddenly on Friday morning when Mrs. Jorgenson and Mrs. Wisersky serving as chauffeurs, gathered fourteen members and took them to the home of Mrs. Peroutka for breakfast, where every one had a good time.

While there Mrs. Peroutka, who is also legislative chairman, had each member write four postals to their senators and representatives, asking them to vote for the Aid to Dependent Children bill. Mrs. Peroutka wishes to thank the ladies who collected the group, for their willing cooperation.

Art Exhibit at P.-T.A. Includes Famous Paintings

Famous paintings by artists of America and Europe were shown in a most beautiful exhibit at the meeting of the Arlington Heights P.-T.A. Tuesday evening when Mr. Harry T. Freyermuth displayed a part of his father's famous collection.

The Senior Mr. Freyermuth, a well known art connoisseur, who before his death traveled extensively in America and Europe purchasing and displaying famous paintings, was connected for many years with Babcocks in New York, and held many well known European connections in the art world. His word was authority with the Metropolitan Museum of New York and the Art Institute of Chicago, on the authenticity of art work, and his collection contains beautiful works in landscape, portrait paintings, still life, animal pictures and all forms of art by the best of artists.

Mr. Freyermuth told of the different artists style of painting, and gave all present a most enjoyable evening.

This subject carried forth from a cultural standpoint the P.-T.A. theme for the year, "Safe Guarding Democracy in Arlington Heights," for as one viewed the beautiful paintings, by American and Foreign artists, one wondered how the present world conditions will influence the art trends of the future, with cultural life in Europe almost at a standstill, and with great losses in the art world.

It emphasizes the importance of safe guarding democracy from a cultural standpoint, as well as for all other obvious reasons, that such a loss of cultural life can not occur in America.

About forty-five of the "Ole Faithfuls" braved the severe wind and extreme cold last Sunday to attend the lecture at Bensenville given by Prof. Bruening on "Music Appreciation." He played a number of records on the church liturgy and numerous church chorales and then told of the interesting history of each.

How many of you are planning on entering the Talent Festival this year? The Zone Cultural Activites chairman and his committee are making arrangements for a pre-Talent Festival evening for April 27 at Park Ridge. Each society should have at least two people entered if not more. Everyone of us has been blessed with some talent, and it isn't vain to want to exhibit that talent in our Lutheran circles or to compete with other Leaguers. Each zone member will receive more detailed information one of these days now, so heed the invitation and help to make the program on the 27th a fine display of art. We could name several of you right now who has "hidden talents" that would be very much enjoyed by our audience.

The Norwood Park society had a meeting Monday to make definite plans for the spring rally which will be held there May 4. Let's make plans to make this one of our largest and finest rallies. Norwood Park can do the arranging and inviting but the rest of us must accept that invitation and cooperate by being there. In comparison with other zone rallies, we have one of the smallest groups at our rallies, in ratio with our membership, that is. Why is it? There must be some reason for this which must be unearthed before this condition can be corrected. But we have plenty of time to talk "rally" after the pre-Talent Festival is a happy memory so let's concentrate on it.

This Friday (21) the L.L.L. of Arlington is sponsoring a sound picture "Crown of Thorns" which is a very descriptive and gripping picture of Christ's birth, life, passion, and ascension. Everyone of us should want to see this story; especially is it appropriate at this time. Tickets are 25c for adults and 15c for children. Everyone is invited.

This Tuesday (18) Arlington seniors had another Etiquette meeting—this time on "dating." Everyone joined in the discussion, and I'm sure everyone learned points which should make us better companions in a Christian-like manner.

Art Exhibit at P.-T.A. Includes Famous Paintings

Famous paintings by artists of America and Europe were shown in a most beautiful exhibit at the meeting of the Arlington Heights P.-T.A. Tuesday evening when Mr. Harry T. Freyermuth displayed a part of his father's famous collection.

The Senior Mr. Freyermuth, a well known art connoisseur, who before his death traveled extensively in America and Europe purchasing and displaying famous paintings, was connected for many years with Babcocks in New York, and held many well known European connections in the art world. His word was authority with the Metropolitan Museum of New York and the Art Institute of Chicago, on the authenticity of art work, and his collection contains beautiful works in landscape, portrait paintings, still life, animal pictures and all forms of art by the best of artists.

The preparation and serving was done by the girls and a fine tasty meal it was. There were more than forty mothers and daughters present. The tables set in the school basement, were decorated in green and white for St. Patrick's Day with tall green candles and clever little Irishmen at each place. The place cards bore the insignia of the Girl Scouts. After the dinner Mrs. Melzer showed movies taken last summer at the Girl Scouts' summer camp at Hickory Hill, Wisconsin.

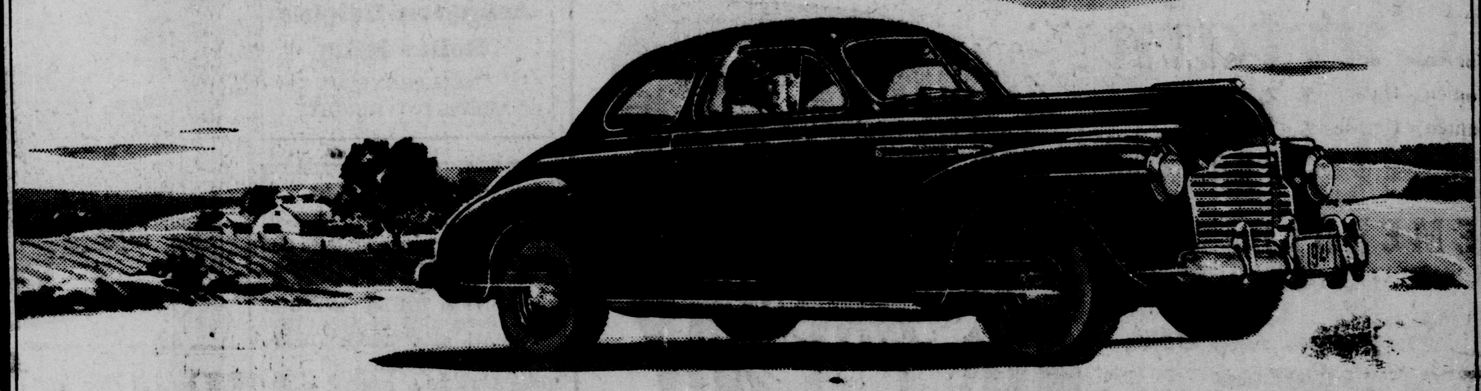
AIR'S FREE so why not use it?



GETTING right down to it, one reason why you get as much as 10% to 15% more miles per gallon from a 1941 FIREBALL Buick with Compound Carburetion is that this engine is supplied with more *air*.

For it is a mixture of gasoline *and air* that gives you power.

A single carburetor, no matter how many jets it has, can handle only so much air — which is nearly always too little for full-out, high-power performance.

But *two* carburetors that function *as needed*, as is the case in Compound Carburetion, can meet any fuel-supply need from low-speed to heavy-power use — and *always* provide a well-balanced mixture.

They can double the air supply as well as the gasoline feed — and that's something you can't do in any single-carburetor car.

So Compound Carburetion leads to big savings in fuel costs.

You get as much as 800 miles for the gas-cost of 700 in earlier Buicks of the same size.

It also provides a walloping big bank of reserve power, which means an up-and-at-'em lift and surge that's nothing short of thrilling to experience.

And you can have Compound Carburetion, you know, on *any* 1941 Buick — it's only a few dollars extra on the swell big SPECIAL pictured here, and standard equipment on all other models.

BUICK PRICES BEGIN AT $915 for the Business Coupe

delivered at Flint, Mich. White sidewall tires, state tax, optional equipment and accessories—extra. Prices subject to change without notice.

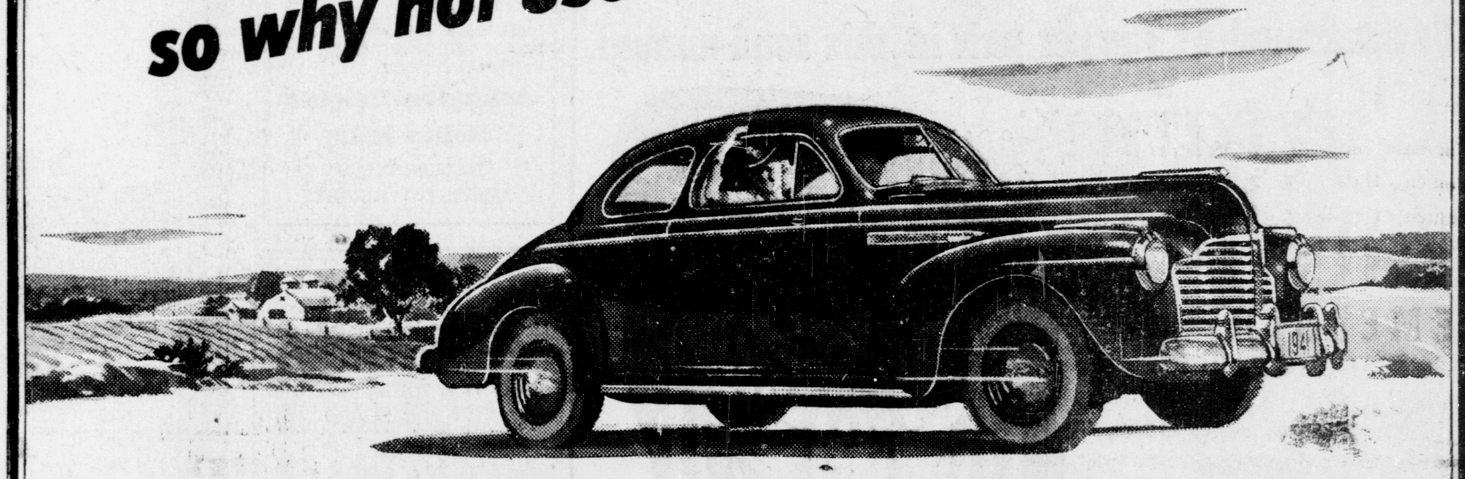
AIR'S FREE
so why not use it?



GETTING right down to it, one reason why you get as much as 10% to 15% more miles per gallon from a 1941 FIREBALL Buick with Compound Carburetion is that this engine is supplied with more *air*.

For it is a mixture of gasoline *and air* that gives you power.

A single carburetor, no matter how many jets it has, can handle only so much air – which is nearly always too little for full-out, high-power performance.

But *two* carburetors that function *as needed*, as is the case in Compound Carburetion, can meet any fuel-supply need from low-speed to heavy-power use – and *always* provide a well-balanced mixture.

They can double the air supply as well as the gasoline feed – and that's something you can't do in any single-carburetor car.

So Compound Carburetion leads to big savings in fuel costs.

You get as much as 800 miles for the gas-cost of 700 in earlier Buicks of the same size.

It also provides a walloping big bank of reserve power, which means an up-and-at-'em lift and surge that's nothing short of thrilling to experience.

And you can have Compound Carburetion, you know, on *any* 1941 Buick – it's only a few dollars extra on the swell big SPECIAL pictured here, and standard equipment on all other models.

The injured young lady in John Howard's strong arms is Ellen Drew. Bette Davis in "The Letter" is on the same bill Sunday through Tuesday.

Catlow Theatre News

Once in a long while a picture comes along so completely satisfying that one feels like getting up and cheering. Such a picture arrived last night at the Catlow Theatre, the run continuous through Friday. We're referring to Paramount's "Virginia," done in Technicolor, and it is not to be facetious that this reviewer calls it one of the brightest feathers in the cap of the current motion picture season.

The roaring action of battles on the high seas, the thrilling, smashing action of two vessels fighting for supremacy is unfolded with terrific impact and amazing realism in Hal Roach's "Captain Caution," the sweeping sea epic based on Kenneth Roberts' best seller, which will have its local premiere at the Catlow Theatre on Saturday, for one day only, through United Artists release.

Film stars of both yesterday and today appear in Universal's "Seven Sinners," the new Marlene Dietrich picture which comes to the Catlow Theatre next Sunday and Monday.

Among the great cinema celebrities of earlier years who have featured roles are Antonio Moreno, Herbert Rawlinson, Eddie Polo and Reginald Denny. Among the leading stars of today appearing with Miss Dietrich are John Wayne, Albert Dekker, Broderick Crawford, Mischa Auer, Billy Gilbert, Anna Lee and Oscar Homolka.

"Seven Sinners" has a South Seas background and Miss Dietrich appears as a cafe singer who falls in love with a young navy officer, portrayed by Wayne.

How a small town doctor outsmarts a big-time promoter, and saves hundreds of his fellow citizens from facing financial ruin provides the theme for the new Stephens-Lang production starring Jean Hersholt, "Remedy for Riches," coming to the Catlow Theatre Tuesday.

Fourth of the series of "Dr. Christian" feature films, this picture does not maintain a serious pace throughout its story. A dozen outstanding laugh situations enable the film to be classed as comedy and to make it an essentially entertaining picture. Between his calls the doctor finds time to become amused at the antics of the town's prominent folk, and to enter into comic situations that concern them.

Double featured on Tuesday with "Remedy for Riches," is "The Lone Wolfe Keeps a Date," with Warren William and Frances Robinson.

"Thief of Bagdad" at Des Plaines Sunday

"The Thief of Bagdad," given the Academy Award recently for the best color photography of the year, opens Sunday at the Des Plaines Theatre, in all its magic splendor for a three day run. Companion picture on this gala program, is the funniest love comedy since "Ninotchka," called "Comrade X," co-starring Clark Gable and Hedy Lamarr.

The current double feature program, which concludes a three day engagement at the Des Plaines Theatre on Saturday, is "Gallant Sons" featuring Jackie Cooper, Bonita Granville, Ian Hunter and Gail Patrick; and "Michael Shayne, Private Detective," with Lloyd Nolan and Marjorie Weaver in the leading roles.

Bette Davis in 'The Letter' At Her All-Time Best

That fascinating, tantalizing and dangerous Bette Davis, is back on the screen with "The Letter," W. Somerset Maugham's greatest drama of a woman's heart. "The Letter" tells a strange story. It tells of a beloved and sheltered woman who murders a man, murders him in cold blood pumping his body full of bullets until her husband's gun is empty. Why did she do it? Well, she tells her husband and her lawyer that she did it to defend her nonor. But it seems there was a letter.

From suave, gentleman sleuth as "Bulldog Drummond," to two-fisted, hard riding G-Man of the range is the change John Howard makes when he appears as a Texas Ranger in the Paramount romantic action-drama, "Texas Rangers Ride Again," which also plays Sunday, Monday and Tuesday.

"Lady With Red Hair," story of the Dayton girl whose blazing red locks and ambitious green eyes fascinated a generation of theatre goers in the Gay Nineties era has been produced as a motion picture by Warner Bros. with Miriam Hopkins as Mrs. Leslie Carter and Claude Rains as Belasco. The picture has its local showing this Thursday, Friday and Saturday.

The roaring action of battles on the high seas, the thrilling, smashing action of two vessels fighting for supremacy is unfolded with terrific impact and amazing realism in Hal Roach's "Captain Caution," the sweeping sea epic based on Kenneth Roberts' best seller, which is also showing this Thursday, Friday and Saturday.

FAREWELL PARTY FOR NORMAN DERRIG INDUCTED INTO ARMY

Another young man from Prospect Heights has gone to serve Uncle Sam for a year, and a farewell party was given him at the home of his parents when on Sunday, March 2, the home of Mr. and Mrs. Joseph A. Derrig of McDonald rd., was not, as several people thought, a model home, but the scene of the "farewell party" for their son, Norman, who left for Camp Forrest, Tullahoma, Tennessee, with the 122nd Field Artillery.

Norman, together with Harvey Meier of Mount Prospect and Frank Bublitz, Glen Granzin and Dick Dieball of Arlington Heights have been inducted into the army and left for Tennessee March 14.

Approximately seventy people, friends and relatives were on hand to wish Norman good luck in his enlistment.

Refreshments were served in the home of Mr. and Mrs. Robert Peterson, the next-door neighbor, daughter and son-in-law of the Derrigs. With the use of the two homes the crowd was easily accommodated.

Tuesday afternoon, Mrs. Abbs was accompanied by Mesdames Dean, Olsen, Rowader, Underwood and Foxworthy to the Arlington Heights Methodist church dessert luncheon. The ladies enjoyed a very delightful afternoon.

Get your car ready for the open road to whiz over highways to let you enjoy your summer weekends. Forget about car troubles — you won't have any after our check-up.

'The Eternal Gift' World Premiere of at Civic Opera

The world premiere of the first sound-motion picture ever made of the Catholic Solemn Mass, "The Eternal Gift," will be presented by the Servite Fathers at the Chicago Civic Opera, March 31 and April 1, it was announced Saturday by the Rev. Hugh Calkins, O.S.M., in charge of the production.

The Rev. James R. Keane, O.S.M., beloved founder of the Perpetual Novena, has a leading role in the film, as Celebrant of the Mass. Right Rev. Monsignor Fulton J. Sheen, D.D., internationally famous as America's finest pulpit orator and renowned for his radio work, is featured in the picture as narrator.

His Excellency, Most Reverend Samuel A. Strich, D.D., Archbishop of Chicago, appears in the sound-movie to give his full approval to this dramatic presentation of the Mass.

This long awaited ten-reel sound-movie of the Easter Mass which was almost two years before the camera and in recording has been acclaimed for its sacred beauty by leading members of the Catholic clergy.

Father Calkins, who is a member of the staff of the Perpetual Novena, said:

"Nothing like this has been done before. This sound movie takes a sacred subject that is as familiar as anything possible could be to a Catholic and presents it in an utterly new light. All the powerful beauty, the sweet sanctity, the heavenly significance of the Holy Sacrifice that is so much an integral part of Catholic life has been magically caught by the camera and the soundtrack."

The sound movie which runs an hour and forty-five minutes was produced under the supervision of the Perpetual Novena in honor of Our Sorrowful Mother. With few exceptions, all scenes in the picture were taken in the world-famed Our Lady of Sorrows Church, Jackson boulevard and Albany avenue, shrine of the Perpetual Novena. More than 1,500 Novenites appear as "extras" in this gigantic production.

The cast also includes Father Hugh Calkins, O.S.M., as Deacon of the Mass and Father Frank Calkins, O.S.M., as Subdeacon.

Music of the Mass, both vocal and instrumental, which authorities agree has reached a new peak in inspiration, was under the expert baton of Rev. Edwin V. Hoover, musical director of the Chicago Archdiocese. It was sound-tracked by members of the world-famous Chicago Symphony orchestra, the choir from the Holy Name Cathedral, and seminarians from the St. Mary of the Lake Seminary, Mundelein, Ill.

The picture opens with Father Hugh Calkins in the pulpit of Our Lady of Sorrows Church, extending greetings to the people who have come to receive instructions in the "Pray the Mass" movement, of which he is a recognized leader. He goes on to explain briefly that the making of the sound-movie is the result of the zeal of the Novenites for spreading the "Pray the Mass" program. Then the picture proceeds to give a detailed explanation of the Solemn Mass.

The production was filmed and recorded in RCA sound by the Chi-

O. E. S. Observes 20th Anniversary

Wheeling chapter 850, O. E. S., celebrated their 20th anniversary last week when past officers of the chapter, assisted by friends from neighboring chapters filled the stations for the evening.

Sister Christine Gieske, past matron of Wheeling Chapter, presided as matron and she was assisted by Brother George Volz, past patron of Palatine Chapter as patron. Other stations were filled by past officers of Wheeling Chapter, with the exception of three, which were held by guests, Myrtle Frey and Florence Luckner of Arlington and William Jienkie of Des Plaines.

A brief but interesting history of the chapter with the high lights brightened and shadows softened, was presented by Sister Marion Gemmill, the first matron of the chapter, and an active member during its twenty years of existence.

Old times were recalled during remarks offered by Sisters Celia Hausam and Edna Mahn and Brothers George Volz and George Ward. Each past officer was presented with a carnation as a thank you token.

The present matron, Sister Shirley Ward, chose to be a listener for the evening, glad to be instructed and inspired by voices from the past. Shirley was still a very small girl when the chapter was instituted 20 years ago. Quite appropriately, Shirley is being assisted in her present station, by her father, Brother George Ward as patron.

A social hour followed the meeting during which a center of attraction was the cutting of the anniversary cake, which was big enough for all present to be served.

In spite of the very inclement weather, which held down the attendance, the chapter's 20th birthday party was a very happy occasion.

Ice Follies of 1941 Returns to Chicago Monday

Breaking an all-time record for ice shows, Shipstad and Johnson's Ice Follies of 1941, which returns to the Chicago Arena for a repeat engagement on March 24, reached the one million mark for the season while the production was playing recently in Pittsburgh.

Not only is this a record for ice productions, but surpasses all other sports and theatrical enterprises. The Ice Follies season began in Hollywood in September which was followed immediately by a two-week engagement in the Chicago Arena.

Sell-out houses last fall, with turn-away crowds numbering in the thousands, prompted the arena management to ask Shipstad and Johnson for a return engagement this spring, and fortunately the ice impresarios were able to include the return run on their schedule.

Stars of the Ice Follies include Evelyn Chandler, Bess Ehrhardt, Roy Shipstad, Shipstad and Johnson, comedian-owners of the Follies, Frick and Frack, the Swiss hillbillies, Harris Legg and more than a score of others, as well as a cast of 72.

This season the Ice Follies will play 49 weeks out of 52, with the other three weeks set aside for vacation of the cast. More than a dozen more requests for dates have been received than can be filled.

Because of the popularity of the ice production last fall, officials of the Arena urge those planning to attend to make arrangements for their tickets early. The capacity of the Arena is limited. Mail orders may be sent to the Arena Box Office, 400 East Erie Street, Chicago.

The March meeting of the P.-T.A. of Wheeling school will be held next Monday evening, March 24. The theme of the meeting will be the timely one of "Citizenship." Essays on that subject will be presented by a boy and girl from each of the four upper grades, which promises to make the meeting of especial interest to all parents and citizen friends. Judges will be present to select the best essays. Plan to attend this meeting of your P.-T.A.

A card and bunco party and Penny Social will be held in the Wheeling Community hall next week Thursday evening, March 27, by Wheeling Camp R. N. A. Games played will be 500, pinochle and bunco and will begin at 8 p. m. The games will be progressive, and valuable first and second prizes plus a booby prize will be awarded to winners of each game. The fee for playing will be 25c which will include refreshments and a chance on the door prize. A variety of attractive prizes will be raffled off during the Penny Social feature of the evening. Three grand prizes will be raffled at the close of the evening consisting of a beautiful chenille bedspread, a lace table cloth and a bathroom set. Come and enjoy the evening with your friends.

Over 100 persons attended the P.-T.A. card party last Friday evening to enjoy the social fellowship of the evening. The prizes which went to the player with the highest score at each table were small plants in attractive china pottery of different shapes and were very acceptable to the winners.

Mr. and Mrs. Fred Utpadel entertained their card club last week. Mr. and Mrs. Harold Utpadel were guest players as was Mrs. E. Galitz, who has not been a member of the group since the illness of her husband. First prizes went to Mrs. Margaret Utpadel and Henry Grandt and seconds were taken by Mrs. Alice Utpadel and Robert Utpadel.

FAREWELL PARTY
FOR NORMAN DERRIG
INDUCTED INTO ARMY

Another young man from Prospect Heights has gone to serve Uncle Sam for a year, and a farewell party was given him at the home of his parents when on Sunday, March 2, the home of Mr. and Mrs. Joseph A. Derrig of McDonald rd., was not, as several people thought, a model home, but the scene of the "farewell party" for their son, Norman, who left for Camp Forrest, Tullahoma, Tennessee, with the 122nd Field Artillery.

Norman, together with Harvey Meier of Mount Prospect and Frank Bublitz, Glen Granzin and Dick Dieball of Arlington Heights have been inducted into the army and left for Tennessee March 14.

Approximately seventy people, friends and relatives were on hand to wish Norman good luck in his enlistment.

Refreshments were served in the home of Mr. and Mrs. Robert Peterson, the next-door neighbor, daughter and son-in-law of the Derrigs. With the use of the two homes the crowd was easily accommodated.

Tuesday afternoon, Mrs. Abbs was accompanied by Mesdames Dean, Olsen, Rowader, Underwood and Foxworthy to the Arlington Heights Methodist church dessert luncheon. The ladies enjoyed a very delightful afternoon.

Get your car ready for the open road to whiz over highways to let you enjoy your summer weekends. Forget about car troubles — you won't have any after our check-up.

'The Eternal Gift' World Premiere of at Civic Opera

The world premiere of the first sound-motion picture ever made of the Catholic Solemn Mass, "The Eternal Gift," will be presented by the Servite Fathers at the Chicago Civic Opera, March 31 and April 1, it was announced Saturday by the Rev. Hugh Calkins, O.S.M., in charge of the production.

The Rev. James R. Keane, O.S.M., beloved founder of the Perpetual Novena, has a leading role in the film, as Celebrant of the Mass. Right Rev. Monsignor Fulton J. Sheen, D.D., internationally famous as America's finest pulpit orator and renowned for his radio work, is featured in the picture as narrator.

His Excellency, Most Reverend Samuel A. Strich, D.D., Archbishop of Chicago, appears in the sound-movie to give his full approval to this dramatic presentation of the Mass.

This long awaited ten-reel sound-movie of the Easter Mass which was almost two years before the camera and in recording has been acclaimed for its sacred beauty by leading members of the Catholic clergy.

Father Calkins, who is a member of the staff of the Perpetual Novena, said:

"Nothing like this has been done before. This sound movie takes a sacred subject that is as familiar as anything possible could be to a Catholic and presents it in an utterly new light. All the powerful beauty, the sweet sanctity, the heavenly significance of the Holy Sacrifice that is so much an integral part of Catholic life has been magically caught by the camera and the soundtrack."

The sound movie which runs an hour and forty-five minutes was produced under the supervision of the Perpetual Novena in honor of Our Sorrowful Mother. With few exceptions, all scenes in the picture were taken in the world-famed Our Lady of Sorrows Church, Jackson boulevard and Albany avenue, shrine of the Perpetual Novena. More than 1,500 Novenites appear as "extras" in this gigantic production.

The cast also includes Father Hugh Calkins, O.S.M., as Deacon of the Mass and Father Frank Calkins, O.S.M., as Subdeacon.

Music of the Mass, both vocal and instrumental, which authorities agree has reached a new peak in inspiration, was under the expert baton of Rev. Edwin V. Hoover, musical director of the Chicago Archdiocese. It was sound-tracked by members of the world-famous Chicago Symphony orchestra, the choir from the Holy Name Cathedral, and seminarians from the St. Mary of the Lake Seminary, Mundelein, Ill.

The picture opens with Father Hugh Calkins in the pulpit of Our Lady of Sorrows Church, extending greetings to the people who have come to receive instructions in the "Pray the Mass" movement, of which he is a recognized leader. He goes on to explain briefly that the making of the sound-movie is the result of the zeal of the Novenites for spreading the "Pray the Mass" program. Then the picture proceeds to give a detailed explanation of the Solemn Mass.

The production was filmed and recorded in RCA sound by the Chi-

O. E. S. Observes 20th Anniversary

Wheeling chapter 850, O. E. S., celebrated their 20th anniversary last week when past officers of the chapter, assisted by friends from neighboring chapters filled the stations for the evening.

Sister Christine Gieske, past matron of Wheeling Chapter, presided as matron and she was assisted by Brother George Volz, past patron of Palatine Chapter as patron. Other stations were filled by past officers of Wheeling Chapter, with the exception of three, which were held by guests, Myrtle Frey and Florence Luckner of Arlington and William Jienkie of Des Plaines.

A brief but interesting history of the chapter with the high lights brightened and shadows softened, was presented by Sister Marion Gemmill, the first matron of the chapter, and an active member during its twenty years of existence.

Old times were recalled during remarks offered by Sisters Celia Hausam and Edna Mahn and Brothers George Volz and George Ward. Each past officer was presented with a carnation as a thank you token.

The present matron, Sister Shirley Ward, chose to be a listener for the evening, glad to be instructed and inspired by voices from the past. Shirley was still a very small girl when the chapter was instituted 20 years ago. Quite appropriately, Shirley is being assisted in her present station, by her father, Brother George Ward as patron.

A social hour followed the meeting during which a center of attraction was the cutting of the anniversary cake, which was big enough for all present to be served.

In spite of the very inclement weather, which held down the attendance, the chapter's 20th birthday party was a very happy occasion.

Ice Follies of 1941 Returns to Chicago Monday

Breaking an all-time record for ice shows, Shipstad and Johnson's Ice Follies of 1941, which returns to the Chicago Arena for a repeat engagement on March 24, reached the one million mark for the season while the production was playing recently in Pittsburgh.

Not only is this a record for ice productions, but surpasses all other sports and theatrical enterprises. The Ice Follies season began in Hollywood in September which was followed immediately by a two-week engagement in the Chicago Arena.

Sell-out houses last fall, with turn-away crowds numbering in the thousands, prompted the arena management to ask Shipstad and Johnson for a return engagement this spring, and fortunately the ice impresarios were able to include the return run on their schedule.

Stars of the Ice Follies include Evelyn Chandler, Bess Ehrhardt, Roy Shipstad, Shipstad and Johnson, comedian-owners of the Follies, Frick and Frack, the Swiss hillbillies, Harris Legg and more than a score of others, as well as a cast of 72.

This season the Ice Follies will play 49 weeks out of 52, with the other three weeks set aside for vacation of the cast. More than a dozen more requests for dates have been received than can be filled.

Because of the popularity of the ice production last fall, officials of the Arena urge those planning to attend to make arrangements for their tickets early. The capacity of the Arena is limited. Mail orders may be sent to the Arena Box Office, 400 East Erie Street, Chicago.

The March meeting of the P.-T.A. of Wheeling school will be held next Monday evening, March 24. The theme of the meeting will be the timely one of "Citizenship." Essays on that subject will be presented by a boy and girl from each of the four upper grades, which promises to make the meeting of especial interest to all parents and citizen friends. Judges will be present to select the best essays. Plan to attend this meeting of your P.-T.A.

A card and bunco party and Penny Social will be held in the Wheeling Community hall next week Thursday evening, March 27, by Wheeling Camp R. N. A. Games played will be 500, pinochle and bunco and will begin at 8 p. m. The games will be progressive, and valuable first and second prizes plus a booby prize will be awarded to winners of each game. The fee for playing will be 25c which will include refreshments and a chance on the door prize. A variety of attractive prizes will be raffled off during the Penny Social feature of the evening. Three grand prizes will be raffled at the close of the evening consisting of a beautiful chenille bedspread, a lace table cloth and a bathroom set. Come and enjoy the evening with your friends.

Over 100 persons attended the P.-T.A. card party last Friday evening to enjoy the social fellowship of the evening. The prizes which went to the player with the highest score at each table were small plants in attractive china pottery of different shapes and were very acceptable to the winners.

Mr. and Mrs. Fred Utpadel entertained their card club last week. Mr. and Mrs. Harold Utpadel were guest players as was Mrs. E. Galitz, who has not been a member of the group since the illness of her husband. First prizes went to Mrs. Margaret Utpadel and Henry Grandt and seconds were taken by Mrs. Alice Utpadel and Robert Utpadel.

Local A. B. C. Team Defeats Chicago Girls At Arl. Recreation

The local team which is one of the two representing Arlington Heights in the A.B.C. on April 7 and 8 in St. Paul, Minnesota, defeated the Logan Square Buicks ladies team Saturday evening at the Arlington Heights Recreation parlors before a large audience of several hundred people, which is a good barometer that bowling is the country's leading sport. The ladies can bowl just as good as the men as the scores below speak for themselves.

In event there can be no misunderstanding, the collection that was made was for the milk fund for the community and has been deposited with Mr. Lattof, finance officer of the Lions club.

Fifth Column

The phrase, "fifth column," became ominous upon the revelation of Norwegian treachery in Oslo and other cities during the German invasion. It was coined by General Emilio Mola during the Spanish rebellion in 1936.

Adopted 56 Children

Mr. and Mrs. R. E. Carr of Ames, Iowa, have reared 56 children, all by adoption or by consent of the parents, according to the American magazine.

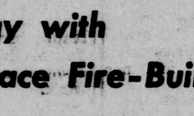
$12,000 an Acre

It costs almost $12,000 to cover an acre of ground with glass for growing of hothouse produce.

Slip Covers Soil Less

Slip covers made of patterned materials soil and show wrinkles less quickly than do plain ones, but they may add to the cost, because more material is sometimes needed for the cover.

BANKING LOOKS AHEAD



Principles of Progress

"What we need is a re-affirmation of faith in our system of free enterprise. Only by the encouragement of thrift and of business privately conducted by business men... will lasting prosperity come."

PHILIP A. BENSON, *President, American Bankers Association, 1938-39*

* * *

We sincerely believe that the basic American principles of free enterprise, thrift and individual initiative — which have combined to make our country great — form our main hope for continued progress in the future.

DETACHABLE, NEW, AUTOMATIC GAS HOUSE-HEATER

Does Away with Spring and Fall Furnace Fire-Building

Teeter-totter temperatures

BEFORE

Chilly spring days call for a fire—so down to the basement you go with paper and kindling—ready to heap on fuel.

Whoops . . . hot weather again. And there you are with a blazing furnace fire. Well, nothing to do but let the fire burn itself out.

What! Yes, now that the furnace is out, the weather turns cool again. So down you go once more to start up the fire. This can go on for days.

Uniform temperature

AFTER

A crisp spring day—so what do you do? Well, it takes but a minute to install this portable unit. Just fit it in the furnace door and let it provide clean, even, healthful heat.

Now the weather gets warm again. Okay, you'll not waste fuel, for the thermostat control has turned off the heat automatically—kept the house from becoming too warm.

The paper forecasts "cold tonight". Don't worry—the gas heater turns on automatically when the weather changes. No work, no worry, and uniform temperatures *always!*

Usable in most cases for more than half the heating season

The story of how this amazing unit operates is told in the pictures above. But here are a few more points you'll want to know about: It's light weight . . . (weighs only 12 pounds). You can attach or remove it with ease . . . no nuts, bolts or wrenches required—no pipes to disconnect. It's economical—(1) operates only when necessary; (2) takes a special low gas house-heating rate; (3) can be used as little or as much as you want. It does not interfere with your regular winter furnace operation, nor does it require any alterations to the furnace grates or fire-box. It can be used in either warm air furnace or hot water boilers.

Now, before changeable spring weather arrives get full particulars about this economical new unit. Write or phone . . .

On alleys 1 and 2, Gaare's Studebakers went into second place by winning all three games from the Arlington Elevators. Dixie Kehe was high for Gaare's with a nice 622 series and a 221 game which won him the $1.00. Dixie also pulled his average up to 188 now, he has been trying all season and finally made it. Nice shootin' Dixie. Pete Varnak was high for the Elevators with 524. That's the first time this year isn't it Fred.

On 3 and 4 the leading Lauterburgh & Oehler's keep rolling right along, they won three more games from Hartmann Shoes. They lead by six games with only seven weeks to go. Ray Dieball just back from the A.B.C. at St. Paul, came through with a neat 649 series and a 246 game, which won him the $1.00 nice going Ray. Ted Siemro also had a nice 601 series. Bud Peters was high for Hartmanns with 559.

On 5 and 6 Park View Tavern won two games from Vail Tavern. The last game by only two pins. Park View is now in fourth place.

Local A. B. C. Team Defeats Chicago Girls At Arl. Recreation

The local team which is one of the two representing Arlington Heights in the A.B.C. on April 7 and 8 in St. Paul, Minnesota, defeated the Logan Square Buicks ladies team Saturday evening at the Arlington Heights Recreation parlors before a large audience of several hundred people, which is a good barometer that bowling is the country's leading sport. The ladies can bowl just as good as the men as the scores below speak for themselves.

In event there can be no misunderstanding, the collection that was made was for the milk fund for the community and has been deposited with Mr. Lattof, finance officer of the Lions club.

Fifth Column

The phrase, "fifth column," became ominous upon the revelation of Norwegian treachery in Oslo and other cities during the German invasion. It was coined by General Emilio Mola during the Spanish rebellion in 1936.

Slip Covers Soil Less

Slip covers made of patterned materials soil and show wrinkles less quickly than do plain ones, but they may add to the cost, because more material is sometimes needed for the cover.

Adopted 56 Children

Mr. and Mrs. R. E. Carr of Ames, Iowa, have reared 56 children, all by adoption or by consent of the parents, according to the American magazine.

$12,000 an Acre

It costs almost $12,000 to cover an acre of ground with glass for growing of hothouse produce.

BANKING LOOKS AHEAD

Principles of Progress

"What we need is a re-affirmation of faith in our system of free enterprise. Only by the encouragement of thrift and of business privately conducted by business men... will lasting prosperity come."

PHILIP A. BENSON, *President, American Bankers Association, 1938-39*

* * *

We sincerely believe that the basic American principles of free enterprise, thrift and individual initiative — which have combined to make our country great — form our main hope for continued progress in the future.

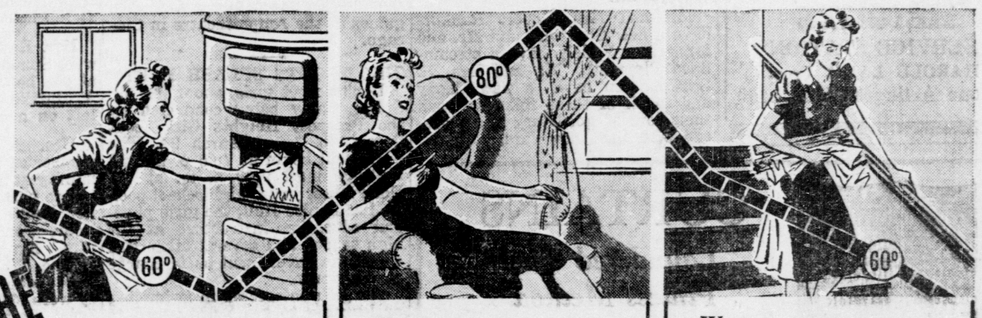
DETACHABLE, NEW, AUTOMATIC GAS HOUSE-HEATER

Does Away with Spring and Fall Furnace Fire-Building

Teeter-totter temperatures

BEFORE



Chilly spring days call for a fire—so down to the basement you go with paper and kindling—ready to heap on fuel.

Whoops . . . hot weather again. And there you are with a blazing furnace fire. Well, nothing to do but let the fire burn itself out.

What! Yes, now that the furnace is out, the weather turns cool again. So down you go once more to start up the fire. This can go on for days.

Uniform temperature

AFTER

A crisp spring day—so what do you do? Well, it takes but a minute to install this portable unit. Just fit it in the furnace door and let it provide clean, even, healthful heat.

Now the weather gets warm again. Okay, you'll not waste fuel, for the thermostat control has turned off the heat automatically—kept the house from becoming too warm.

The paper forecasts "cold tonight". Don't worry—the gas heater turns on automatically when the weather changes. No work, no worry, and uniform temperatures *always!*

Usable in most cases for more than half the heating season

The story of how this amazing unit operates is told in the pictures above. But here are a few more points you'll want to know about: It's light weight . . . (weighs only 12 pounds). You can attach or remove it with ease . . . no nuts, bolts or wrenches required—no pipes to disconnect. It's economical—(1) operates only when necessary; (2) takes a special low gas house-heating rate; (3) can be used as little or as much as you want. It does not interfere with your regular winter furnace operation, nor does it require any alterations to the furnace grates or fire-box. It can be used in either warm air furnace or hot water boilers.

Now, before changeable spring weather arrives get full particulars about this economical new unit. Write or phone . . .

Sears' New Coldspot Has 4-Zone Storage

Four separate "storage pantries" that permit varying degrees of refrigeration within a refrigerator are a feature highlight of the 1941 Coldspot now being exhibited at Seas Roebuck & Company, Des Plaines.

This new method of refrigeration control represents a step forward in the science of food protection and preservation in that different types of foodstuffs are not subjected to identical intensities of cold.

As explained by Mr. T. E. Cunningham, manager of the local Sears store where a complete line of these refrigerators is on display, the carefully planned interior of the Coldspot is divided into four zones of cold for the storage of everything from frozen foods to fresh vegetables.

Provides Shelf Space

The first zone, or freezing compartment, contains the ice trays and can be utilized for making frozen desserts or for storing as much as 16 pounds of frozen foods. The second compartment is a "meat chilling tray" where steaks, fish, fowl, and game are protected by high humidity cold storage. A generous amount of shelf space makes up the third refrigeration area and here milk, butter, eggs, and miscellaneous foods may be kept.

Two glass topped Foodex drawers constitute the fourth cold zone where fresh fruits and vegetables may be retained in perfect condition for long periods.

As a further storage convenience the Coldspot is equipped with a fifth but unrefrigerated "pantry" known as the Handibin. This feature is a slide-out drawer in the bottom of the cabinet which will hold more than a bushel of vegetables.

The "Roto-seal "package unit" in the 1941 Coldspot has improved efficiency and is now hermetically sealed in a steel case, says Mr. Cunningham. In addition the new models have such refinements as patented tray releases, push button temperature controls, and touch-a-bar door handles. This Sears-designed, Sears-engineered and Sears-distributed refrigerator line also has new streamlined beauty.

Marks 10th Anniversary

"This year marks the tenth anniversary of the Coldspot refrigerator," said Mr. Cunningham.

"Back in 1931 a group of Sears merchandise executives became convinced that by taking advantage of the company's distribution methods a less expensive refrigerator could be offered to the American public. And although the Coldspot made its debut in a severe depression year and in the face of terrific competition, the faith of its creators was vindicated in less than three years and the line went ahead to make merchandising history. Over a million Coldspots are now in use throughout the country and it is now one of the nation's top ranking refrigerators."

Wills Filed

DES PLAINES

The will of the late Edward A. Hecht, who died in Chicago, Jan. 14, leaving a $15,000 estate has been admitted to probate. All but $100 of the estate is put in trust with the income to go to his brother, Albert A. Hecht of Des Plaines for life. After his death it is to be divided between Edward's nephews and nieces who may then be living.

PALATINE

Mrs. Elinor K. Totman, who died in Winnetka Feb. 6, left an $80,000 estate to her family. Her will gives her husband $20,000 outright and makes him trustee of the remainder of the estate which he is to hold for their three daughters. They are each to receive one-third the income of the trust and a similar share of the principal when each reaches the age of 35. One daughter is Mrs. Way Thompson of Palatine.

Sears' New Coldspot Has 4-Zone Storage

Four separate "storage pantries" that permit varying degrees of refrigeration within a refrigerator are a feature highlight of the 1941 Coldspot now being exhibited at Seas Roebuck & Company, Des Plaines.

This new method of refrigeration control represents a step forward in the science of food protection and preservation in that different types of foodstuffs are not subjected to identical intensities of cold.

As explained by Mr. T. E. Cunningham, manager of the local Sears store where a complete line of these refrigerators is on display, the carefully planned interior of the Coldspot is divided into four zones of cold for the storage of everything from frozen foods to fresh vegetables.

Provides Shelf Space

The first zone, or freezing compartment, contains the ice trays and can be utilized for making frozen desserts or for storing as much as 16 pounds of frozen foods. The second compartment is a "meat chilling tray" where steaks, fish, fowl, and game are protected by high humidity cold storage. A generous amount of shelf space makes up the third refrigeration area and here milk, butter, eggs, and miscellaneous foods may be kept.

Two glass topped Foodex drawers constitute the fourth cold zone where fresh fruits and vegetables may be retained in perfect condition for long periods.

As a further storage convenience the Coldspot is equipped with a fifth but unrefrigerated "pantry" known as the Handibin. This feature is a slide-out drawer in the bottom of the cabinet which will hold more than a bushel of vegetables.

The "Roto-seal "package unit" in the 1941 Coldspot has improved efficiency and is now hermetically sealed in a steel case, says Mr. Cunningham. In addition the new models have such refinements as patented tray releases, push button temperature controls, and touch-a-bar door handles. This Sears-designed, Sears-engineered and Sears-distributed refrigerator line also has new streamlined beauty.

Marks 10th Anniversary

"This year marks the tenth anniversary of the Coldspot refrigerator," said Mr. Cunningham.

"Back in 1931 a group of Sears merchandise executives became convinced that by taking advantage of the company's distribution methods a less expensive refrigerator could be offered to the American public. And although the Coldspot made its debut in a severe depression year and in the face of terrific competition, the faith of its creators was vindicated in less than three years and the line went ahead to make merchandising history. Over a million Coldspots are now in use throughout the country and it is now one of the nation's top ranking refrigerators."

It Happened Here

The stage to Half Moon Bay and Pescadero was no gilded Pickwick stage but had the seasoned peculiarities of a vehicle designed for the round trip on the sandy and torturous Ocean road, separated from the paved highway by the Sierra Madre hills. The stage was loading in leisurely fashion when we took our place in the section marked "Ladies," and directly back of the driver; the boss of the line, in his Sunday best, sat with the driver, both men embarrassed at the contact. There was an Italian bridal couple with a seat to themselves, the bride with heavy shoes and a wide and flowery hat; farther back was a Swede whose large feet bothered him and who, after deciding to leave them in the aisle, sat and read the Radio news; and there was the Italian workman trying to climb into the ladies section, to the scandal of his mate who gesticulated violently, pointing to the cabalistic word. Finally we were off to a good start, dipping down thru fields of artichokes fresh and green with the mists from San Bruno, and then striking the coast.

The road wound, now a strip along the ocean, now in and out higher and higher among the hills, losing the ocean but with glimpses of green ravines and ranches, and then back again to the sand. It was spring in California and the hills were a green rampart for miles upon miles, and the coast was serrated with coves trimmed with the lace of surf and encircling water bluer than the waters of the Vesuvian Bay. The green walls pressed close about Half Moon Bay framing its blue and silver half moon where little fishing boats danced at the old wharfs. We lost the Italians at Purisima and had a flat on the sands close to the surf. The driver, refusing help from his boss, changed tires alone in a scene set in paradise. At Pescadero we had lunch and turned back. Being the sole passenger for the return trip was a responsibility; the driver, munching his rosy apple, finally held up a second with a friendly grin and it was a good apple, a very good apple.

S'Amuser.

It Happened Here

The stage to Half Moon Bay and Pescadero was no gilded Pickwick stage but had the seasoned peculiarities of a vehicle designed for the round trip on the sandy and torturous Ocean road, separated from the paved highway by the Sierra Madre hills. The stage was loading in leisurely fashion when we took our place in the section marked, "Ladies," and directly back of the driver; the boss of the line, in his Sunday best, sat with the driver, both men embarrassed at the contact. There was an Italian bridal couple with a seat to themselves, the bride with heavy shoes and a wide and flowery hat; farther back was a Swede whose large feet bothered him and who, after deciding to leave them in the aisle, sat and read the Radio news; and there was the Italian workman trying to climb into the ladies section, to the scandal of his mate who gesticulated violently, pointing to the cabalistic word. Finally we were off to a good start, dipping down thru fields of artichokes fresh and green with the mists from San Bruno, and then striking the coast.

The road wound, now a strip along the ocean, now in and out higher and higher among the hills, losing the ocean but with glimpses of green ravines and ranches, and then back again to the sand. It was spring in California and the hills were a green rampart for miles upon miles, and the coast was serrated with coves trimmed with the lace of surf and encircling water bluer than the waters of the Vesuvian Bay. The green walls pressed close about Half Moon Bay framing its blue and silver half moon where little fishing boats danced at the old wharfs. We lost the Italians at Purisima and had a flat on the sands close to the surf. The driver, refusing help from his boss, changed tires alone in a scene set in paradise. At Pescadero we had lunch and turned back. Being the sole passenger for the return trip was a responsibility; the driver, munching his rosy apple, finally held up a second with a friendly grin and it was a good apple, a very good apple.

S'Amuser.

Mac Says-

by GERALD A. MC ELROY

The Morton team which took the Elgin Quarter-Finals by defeating Waterman 39-25 Tuesday evening is the best high school team we have seen in action this year. They have remarkable speed and drive along with superior ball handling and a tight defense. Strumillo was outstanding in the final game along with Denkovitch. Aganist East Rockford it was Leitner, center, and Plaegman, forward, who scored most consistently in running up a 46-32 count.

MORTON LOST IN REGIONAL

Dundee had been our pick as best team in Northern Illinois until we saw Morton. The latter has better balance and stronger reserves. At that the Cicero club was a regional runner-up, losing to Proviso 47-32 while the latter was beaten by Sheldon who in turn lost to Watreman at Joliet. From what we hear, Morton has been good all year but really played inspired ball and reached their peak at Elgin early this week. Five of the sixteen teams entering the final week of play were defeated in regional finals.

Tough Assignment Friday

Morton will have to turn in a peak performance Friday night at Champaign if they hope to have any chance of upsetting the wonder five from Centralia. Eddelman and his pals seem to have just too much on the ball this year for the best of them and breezed through their own quarter final tourney with winning scores of 45-24 and 56-20. Our dope is Centralia for the state title with Canton second and Morton third in the four team grand finale at Champaign.

A Rout After the First Half

In the final game at Elgin Tuesday, Morton had eight out of 18 shots in the first half while Waterman connecting mostly on long ones cashed in on eight out of 19. At the half the count was 18-16 Morton but the big school five poured it on at the start of the third period and soon took a 15 point lead while holding Waterman to a single goal for 12 minutes.

A Minimum of Fouls

One unusual feature of the game was that not a foul was called in the first 11 minutes of the game. The play was clean throughout. This is in direct contrast to the sectional at Waukegan where an average of 30 fouls a game were called and the regional at Glenbard where the average was closer to 40.

Waterman Smallest School

Waterman with 110 students was the smallest school to get into the select sixteen while Morton with 6,000 students was by far the largest.

Freeport Takes Third

Last Friday East Rockford beat Freeport 20-19 in the sectional, but the latter won the lucky draw to take the place of a Chicago entry which did not materialize. Tuesday these neighboring rivals of the Big Eight Conference clashed in the preliminary for third place, both having been snowed under the preceding night. In a rather uninteresting game the Pretzels of Freeport took a 29-27 decision. Bell, an unusually clever colored boy, provided most of the interest in the game by means of some remarkable ball handling. He was the real team leader of the Freeport five.

Some Scoring Record

Green of Urbana scored 25 points against Collinsville and 26 points against Pittsfield in the Springfield quarter finals. The state tourney record previous to this year was 24 for one game made by Eddelman of Centralia when he was a freshman three years ago. Eddelman, by the way, topped the 900 mark for the season in Tuesday's game.

Will Attend State Tourney

We will be in Champaign Friday and Saturday to see the state finals for the fifth year in a row. Next week we hope to have a few interesting sidelights on the big show of the year in Illinois high school sports. Many of the coaches of this area will see the tourney. Among those we know will be in attendance are men from Barrington, Northbrook, Wauconda, Leyden, Niles, Woodstock and Libertyville.

Palatine Relays Growing

Twenty-five invitations were sent out last Friday for the Ninth Palatine relays to be held April 26. To date 14 cards have been returned indicating that schools will enter. The prospects point to at least 20 entries this year. Woodstock, McHenry, Harvard and Niles are schools not in attendance last year that are planning to enter. Two other new ones still undecided are Antioch and Belvidere. If the number of class B entries is too few in comparison with the class A the enrollment mark may be hiked up to 325 or 350 for the small schools.

To Have Shuttle Relay

A new event on the relays program this year will be a 432 yard low hurdle shuttle relay to take the place of the individual low hurdle race. This new event will not be run by classes, but will be open to all as is the case with the field events, the 100 yard dash, high hurdles, 440 yard run and mile race.

Wheaton Relays April 26

Coach Bob Horsley of Wheaton sponsors a relay meet the same day as the Palatine meet. At Wheaton there is no limit to class A while B schools are those under 1250 enrollment. Naperville so far has attended the Palatine meet instead of going to Wheaton, just a few miles away. John Harshbarger, Naperville coach, says his boys prefer the Palatine meet because medals are offered here while at Wheaton the emphasis is upon trophies as relay awards. The latter, of course, go to winning schools. Naperville, according to Harshbarger, will again come to Palatine. The Redskins have taken the meet three years in a row and Geneva has a similar record in the B division. Down at Wheaton, Proviso was the "A" winner in 1940 and Wheaton the "B" champion.

Principals Veto Schedule Plans

At a meeting of the Northwest Conference principals Tuesday at Palatine the coaches' recommendation of a 14 game home and home schedule in basketball was turned down. Instead the majority favored retaining the past 10 game schedule with the order of games just the reverse of the 1940-41 arrangement. As far as we are concerned it makes little difference. We like the 12 game rotating idea used in the Northeast Conference better than either of the suggested Northwest plans.

Interciass Tournaments

At Arlington the juniors turned back the seniors in the interclass finals while at Barrington it was the sophomore class which came out on top. This indicates better boys coming up than those graduating. At Barrington, however, the best player in the school, DeWitz, will be too old to compete next season though now but a sophomore.

Palatine Seniors Swamp Juniors

At Palatine the juniors nosed out the sophs by one point in the first round and then took a terrible shellacking from the seniors in the final. The seniors ran up over 80 points though using subs a lot of the game and playing serious basketball only part of the time.

Hollinger did not play in the interclass games. His knee which has been bad all season making necessary the use of a brace, was injured in the Libertyville game at the Waukegan tournament. He played in the New Trier game in spite of the injury, showing a spirit characteristic of a real competitor.

Naperville Relays First Test for Cards

Palatine, Bensenville Also Entered Saturday

by G. A. McELROY

Coach John Grose faces a tough task this spring in giving Arlington another strong track team. In the first place the Cards have no place to practice. They never did have a track, but this year their field is not even available due to the fact that the construction of a track is underway. The second pessimistic note is the lack of experienced talent.

Arlington has but five returning lettermen. These boys are really good but there are many events which will lack experienced candidates. Arlington will be strong in the hurdles with Heinze and Briggs both top flight performers of last season. Unfortunately both are somewhat handicapped by injuries. Harth is a first class high jumper and an above average 220 dash man. R. Niemeyer is a good distance runner and Schwolow will be depended on in the middle distance events. Bolte, the leading frosh-soph track man of last year, will be out after varsity honors in the sprints and broad jump.

Arlington will enter the Naperville Indoor Relays this week and the Oak Park meet next week Saturday. In the medley relay event Grose has entered Schwolow, Harth, Bolte, and R. Niemeyer. In the two mile relay the Rohlwing twins and the Niemeyer brothers will compete. Kamps, Geudtner, Coleman, and the Williams twins are possible runners in the Frosh-Soph relay. Heinze and Briggs will be Arlington's best entries competing in the hurdles. Harth and Geudtner are entered in the high jump.

Palatine's Prospects Are Good

Palatine's track prospects are unusually good this year. Only four lettermen have been lost by graduation from a team which was undefeated in dual meets last season. The Pirates will have 16 lettermen back though two or three are not expected to report for the sport this spring.

The Pirate squad is very strong in the regular running events, but hurdling is again one of the uncertain factors. If boys come through in the hurdles, high jump and broad jump, Palatine will have the best team in the history of the school.

Have Outstanding Runners

Losses by graduation included Howes, a 10 foot pole vaulter; Gieseke, who high jumped five feet five inches; Fink, a hurdler and third place winner in the district discus event; and B. Field, distance runner. The Palatine squad this year will be headed by A. Cipri, Langhoff, Trepus, and Senne, a quartet of the best runners in these parts, and Hahnfeldt who is expected to have a great season in the weight events. Hollinger, star 440 and 220 man of other years, will be off the squad indefinitely due to a knee injury which bothered him all season in basketball. Thieme, D. Field, Godknecht, J. Cipri, Warder, Birks, Snyder, Metz, Schwolow, and McCombs are boys who have won letters in past seasons. Hooson, Anderson, and Timmerhaus won cross country letters last fall along with Cipri, Langhoc, D. Field, and Trepus and should be valuable varsity runners this year.

Palatine is entered in the two mile relay and medley relay at the Naperville relays this week Saturday night. The two mile relay team will be made up of Cipri, Langhoff, and Trepus with a fourth runner to be selected from among Senne, Anderson, D. Field, and Hooson. The medley team will be made up of some of the above named group with Thieme and Warder possibilities for the short sections of the race. Palatine will also enter the two mile relay at Oak Park next week Saturday.

Bisons Strong in 880

Coach Trapp has entered six boys in the Naperville and Oak Park relays. In the individual events Audis and Custer are entered in the 60 yard dash, Kiefer in the high jump, Pomplum and Steinhagen in the hurdles and J. Thomas will pole vault. Bensenville has also entered an eight lap relay team in the Naperville relays made up of Audis, Kiefer, J. Thomas and Pomplum. At Oak Park the Bisons will run in the four as well as the eight lap event.

Pomplum, Kiefer and J. Thomas were conference champs in their individual events last year. Audis is a fast junior that has transferred from an Iowa school. He has run the 100 yard dash in 10.3. Bensenville appears to have an outstanding 880 yard relay team.

Palatine Closes Record Basketball Season

Palatine's cage record for the 1940-41 season is without question the best in the history of the school and one of the better records in the state. The varsity team won 23 while losing three and the lightweights copped 14 while dropping four.

There were a lot of new Palatine records set up by the two Pirate teams. The varsity won the most games taken by a Palatine team (23). They won their second undisputed conference title and the first undefeated championship taken by a Pirate team. No other Palatine team has won undisputed championships. The team scored the most points, 1055, and Hahnfeldt set a new Palatine scoring record with 309 for the season, an average of 11.9 per game. The team had the greatest margin over their opponents with an average of 40.6 to opponents 23. Palatine set a new Northwest Conference scoring record for 10 games with 433 points. The team made the best scholastic average of any Palatine five with a record of B. Three players have been honor roll students throughout their high school course. These boys are Hollinger, Hahnfellt, and DeBerge. The team ran its string to 16 straight home victories without defeat. Only one home game has been lost in three seasons.

The Palatine lightweights won the most games of any junior team in the school's history with 14 and also had the best percentage. Howes was the first Palatine boy to lead the conference in lightweight scoring, getting 111 points in 10 games.

Win Four Trophies

The Palatine teams won the most trophies Palatine has ever taken in a season. The past high season was two trophies. The 1940-41 Pirates copped four including third at DeKalb, first in the district, and first in both divisions of the Northwest Conference.

In the four years that the present senior class has been in high school Palatine has won two varsity championships, two lightweight championships, and two district titles. Palatine teams have advanced to the regional semi-finals on three occasions in four years.

Over the four year period Palatine's varsity teams have won 72 and lost 14 for a 83.7 percentage. The lightweights have won 44 and lost 20 for a percentage of 68.3 over the same period.

The Palatine team records for all games played during the six years that McElroy has handled the varsity and lightweight teams are as follows:

Varsity

1936—Won 7, lost 11.
1937—Won 10, lost 6.
1938—Won 18, lost 4.
1939—Won 13, lost 4.

Earl Gieseke, Former Star End for Arlington, Is Successful Coach

News from Glendale, Arizona indicates that Earl Gieseke, former star athlete at Arlington Heights high school, is continuing as a coach the successes he had as a player in prep school and college. Gieseke's work as football mentor brought Glendale a record of six wins, two ties, and two defeats last fall. This was a considerable improvement over previous seasons for Glendale, which has the smallest enrollment of the schools in its league.

Placing two ends on the all-state first and second teams was probably the high point of Gieseke's work in football. Arlington fans will remember him as the outstanding end in Cardinal history. He continued his successes at Riverside Junior college in California and at the University of Arizona. After completing his college playing career at Arizona he remained as freshman coach for one season.

Gieseke's track team is apparently headed for the same kind of a record as his football team. His boys opened the season with a win over Mesa Union high school which previously had never lost to Glendale. With several stars developing on his squad Gieseke is looking forward to a good season and has hopes of qualifying several boys for the finals of the state meet.

Juniors Win Class Tourney At Arlington

Inter Class—

The annual inter-class basketball tournament at the Arlington Heights high school was won by the juniors last Friday night when they defeated the seniors by one point in a bitterly contested game. Both teams had romped to victories against freshmen and sophomores, piling up huge scores and putting on demonstrations of superior skill. The juniors scored 61 points against each of their younger opponents.

The final game was a civil war, typical of interclass basketball. Former team mates were pitted against each other, each knowing every move his opponent would make. The final score of 15-14 indicates this fact. The juniors led at the end of the first quarter but trailed thereafter until the last four minutes. Two quick baskets by Bolte and free throws by Becker and Millay put them two points in front. Weber made it a one point gap with a free throw but Hamburg hit a set shot from the free throw line to widen the margin again. The seniors scored once more with fifteen seconds to go and had a free throw on the play but missed the chance to tie.

The sophomores beat the freshmen in the preliminary game of the evening to take third place. The score was 27-15 as the freshmen gave a good account of themselves. They put on several excellent passing plays and got more than their share of rebounds. Superior teamwork and shooting ability gave the sophomores their victory.

The juniors not only won the tournament but had the high total of points with 137 in three games and had three of the five highest scorers. Becker was first with 50 points, Millay second with 35, and Bolte fourth with 29. Bolte was only one point back of Ed Mueller, a senior, who was third with 30. Tom Coleman, a sophomore, was fifth with 21. The seniors were second in team scoring with 100 points, the sophomores third with 77, while the freshmen were able to accumulate 54 in their three games.

John Harth and Tom Coleman were not allowed to play extensively because of recent severe colds. Except for the freshmen, the class teams were usually directed by their captains. This offered spectators an interesting opportunity to test the judgment of the boys in their selection of substitutes and of game strategy. Results were good in general.

All officiating was done by Bill Beckman, a recent alumnus, and by coaches Campbell and Hayes. The public was admitted to the final games free of charge in appreciation of the loyalty of fans during the season.

Northwest Coaches Plan Spring Sports

The coaches of the Northwest Conference met at the Ela high school in Lake Zurich last Friday afternoon to arrange the spring sports schedules. Other matters considered were the rating of officials for basketball next year and the making of a new basketball schedule.

The coaches went on record as unanimously favoring a complete home and home schedule of 14 conference basketball games. A committee composed of Herrmann of Wauconda, Mackey of Northbrook, and Bricker of Barrington was appointed to arrange a schedule and present it to the principals' meeting for official approval. It was also decided that every school have two officials in basketball in the case of all opponents who followed that policy. This is also subject to the approval of the principals.

Four Conference Spring Sports

The conference will engage in four sports this spring. Barrington, Bensenville, Antioch, and Palatine will engage in track with a possibility of Grant and Northbrook having a few entries in the conference meet which will be held on Friday, May 23.

Baseball will be a conference sport for five schools including Antioch, Barrington, Ela, Grant, and Northbrook. Antioch, Barrington, Bensenville, and Grant will compete in golf.

Tennis Popular Sport

Tennis will be played by all the schools except Ela though Wauconda may enter only the conference tournament. The league tournament is scheduled for Saturday, May 24 at Northbrook. In case of bad weather the affair will be shifted to Barrington. Substitute dates of Tuesday and Wednesday afternoons, May 27 and 28, are scheduled in case of bad weather.

Bisons Won Track Title

Last year Bensenville won the track title with Palatine a close second. Palatine copped the tennis championship with Barrington second. Grant was the baseball winner with Northbrook taking second honors. Bensenville had the outstanding golf team last year.

Barrington will have five men coaching spring sports, Antioch, Bensenville, and Northbrook will have three, Grant two, and Palatine, Ela, and Wauconda will each have one.

Mac Says-

by GERALD A. MC ELROY

The Morton team which took the Elgin Quarter-Finals by defeating Waterman 39-25 Tuesday evening is the best high school team we have seen in action this year. They have remarkable speed and drive along with superior ball handling and a tight defense. Strumillo was outstanding in the final game along with Denkovitch. Aganist East Rockford it was Leitner, center, and Plaegman, forward, who scored most consistently in running up a 46-32 count.

MORTON LOST IN REGIONAL

Dundee had been our pick as best team in Northern Illinois until we saw Morton. The latter has better balance and stronger reserves. At that the Cicero club was a regional runner-up, losing to Proviso 47-32 while the latter was beaten by Sheldon who in turn lost to Watreman at Joliet. From what we hear, Morton has been good all year but really played inspired ball and reached their peak at Elgin early this week. Five of the sixteen teams entering the final week of play were defeated in regional finals.

Tough Assignment Friday

Morton will have to turn in a peak performance Friday night at Champaign if they hope to have any chance of upsetting the wonder five from Centralia. Eddelman and his pals seem to have just too much on the ball this year for the best of them and breezed through their own quarter final tourney with winning scores of 45-24 and 56-20. Our dope is Centralia for the state title with Canton second and Morton third in the four team grand finale at Champaign.

A Rout After the First Half

In the final game at Elgin Tuesday, Morton had eight out of 18 shots in the first half while Waterman connecting mostly on long ones cashed in on eight out of 19. At the half the count was 18-16 Morton but the big school five poured it on at the start of the third period and soon took a 15 point lead while holding Waterman to a single goal for 12 minutes.

A Minimum of Fouls

One unusual feature of the game was that not a foul was called in the first 11 minutes of the game. The play was clean throughout. This is in direct contrast to the sectional at Waukegan where an average of 30 fouls a game were called and the regional at Glenbard where the average was closer to 40.

Waterman Smallest School

Waterman with 110 students was the smallest school to get into the select sixteen while Morton with 6,000 students was by far the largest.

Freeport Takes Third

Last Friday East Rockford beat Freeport 20-19 in the sectional, but the latter won the lucky draw to take the place of a Chicago entry which did not materialize. Tuesday these neighboring rivals of the Big Eight Conference clashed in the preliminary for third place, both having been snowed under the preceding night. In a rather uninteresting game the Pretzels of Freeport took a 29-27 decision. Bell, an unusually clever colored boy, provided most of the interest in the game by means of some remarkable ball handling. He was the real team leader of the Freeport five.

Some Scoring Record

Green of Urbana scored 25 points against Collinsville and 26 points against Pittsfield in the Springfield quarter finals. The state tourney record previous to this year was 24 for one game made by Eddelman of Centralia when he was a freshman three years ago. Eddelman, by the way, topped the 900 mark for the season in Tuesday's game.

Will Attend State Tourney

We will be in Champaign Friday and Saturday to see the state finals for the fifth year in a row. Next week we hope to have a few interesting sidelights on the big show of the year in Illinois high school sports. Many of the coaches of this area will see the tourney. Among those we know will be in attendance are men from Barrington, Northbrook, Wauconda, Leyden, Niles, Woodstock and Libertyville.

Palatine Relays Growing

Twenty-five invitations were sent out last Friday for the Ninth Palatine relays to be held April 26. To date 14 cards have been returned indicating that schools will enter. The prospects point to at least 20 entries this year. Woodstock, McHenry, Harvard and Niles are schools not in attendance last year that are planning to enter. Two other new ones still undecided are Antioch and Belvidere. If the number of class B entries is too few in comparison with the class A the enrollment mark may be hiked up to 325 or 350 for the small schools.

To Have Shuttle Relay

A new event on the relays program this year will be a 432 yard low hurdle shuttle relay to take the place of the individual low hurdle race. This new event will not be run by classes, but will be open to all as is the case with the field events, the 100 yard dash, high hurdles, 440 yard run and mile race.

Wheaton Relays April 26

Coach Bob Horsley of Wheaton sponsors a relay meet the same day as the Palatine meet. At Wheaton there is no limit to class A while B schools are those under 1250 enrollment. Naperville so far has attended the Palatine meet instead of going to Wheaton, just a few miles away. John Harshbarger, Naperville coach, says his boys prefer the Palatine meet because medals are offered here while at Wheaton the emphasis is upon trophies as relay awards. The latter, of course, go to winning schools. Naperville, according to Harshbarger, will again come to Palatine. The Redskins have taken the meet three years in a row and Geneva has a similar record in the B division. Down at Wheaton, Proviso was the "A" winner in 1940 and Wheaton the "B" champion.

Principals Veto Schedule Plans

At a meeting of the Northwest Conference principals Tuesday at Palatine the coaches' recommendation of a 14 game home and home schedule in basketball was turned down. Instead the majority favored retaining the past 10 game schedule with the order of games just the reverse of the 1940-41 arrangement. As far as we are concerned it makes little difference. We like the 12 game rotating idea used in the Northeast Conference better than either of the suggested Northwest plans.

Interclass Tournaments

At Arlington the juniors turned back the seniors in the interclass finals while at Barrington it was the sophomore class which came out on top. This indicates better boys coming up than those graduating. At Barrington, however, the best player in the school, DeWitz, will be too old to compete next season though now but a sophomore.

Palatine Seniors Swamp Juniors

At Palatine the juniors nosed out the sophs by one point in the first round and then took a terrible shellacking from the seniors in the final. The seniors ran up over 80 points though using subs a lot of the game and playing serious basketball only part of the time. Hollinger did not play in the interclass games. His knee which has been bad all season making necessary the use of a brace, was injured in the Libertyville game at the Waukegan tournament. He played in the New Trier game in spite of the injury, showing a spirit characteristic of a real competitor.

Naperville Relays First Test for Cards

Palatine, Bensenville Also Entered Saturday

by G. A. McELROY

Coach John Grose faces a tough task this spring in giving Arlington another strong track team. In the first place the Cards have no place to practice. They never did have a track, but this year their field is not even available due to the fact that the construction of a track is underway. The second pessimistic note is the lack of experienced talent.

Arlington has but five returning lettermen. These boys are really good but there are many events which will lack experienced candidates. Arlington will be strong in the hurdles with Heinze and Briggs both top flight performers of last season. Unfortunately both are somewhat handicapped by injuries. Harth is a first class high jumper and an above average 220 dash man. R. Niemeyer is a good distance runner and Schwolow will be depended on in the middle distance events. Bolte, the leading frosh-soph track man of last year, will be out after varsity honors in the sprints and broad jump.

Arlington will enter the Naperville Indoor Relays this week and the Oak Park meet next week Saturday. In the medley relay event Grose has entered Schwolow, Harth, Bolte, and R. Niemeyer. In the two mile relay the Rohlwing twins and the Niemeyer brothers will compete. Kamps, Geudtner, Coleman, and the Williams twins are possible runners in the Frosh-Soph relay. Heinze and Briggs will be Arlington's best entries competing in the hurdles. Harth and Geudtner are entered in the high jump.

Palatine's Prospects Are Good

Palatine's track prospects are unusually good this year. Only four lettermen have been lost by graduation from a team which was undefeated in dual meets last season. The Pirates will have 16 lettermen back though two or three are not expected to report for the sport this spring.

The Pirate squad is very strong in the regular running events, but hurdling is again one of the uncertain factors. If boys come through in the hurdles, high jump and broad jump, Palatine will have the best team in the history of the school.

Have Outstanding Runners

Losses by graduation included Howes, a 10 foot pole vaulter; Gieseke, who high jumped five feet five inches; Fink, a hurdler and third place winner in the district discus event; and B. Field, distance runner. The Palatine squad this year will be headed by A. Cipri, Langhoff, Trepus, and Senne, a quartet of the best runners in these parts, and Hahnfeldt who is expected to have a great season in the weight events. Hollinger, star 440 and 220 man of other years, will be off the squad indefinitely due to a knee injury which bothered him all season in basketball. Thieme, D. Field, Godknecht, J. Cipri, Warder, Birks, Snyder, Metz, Schwolow, and McCombs are boys who have won letters in past seasons. Hooson, Anderson, and Timmerhaus won cross country letters last fall along with Cipri, Langhoc, D. Field, and Trepus and should be valuable varsity runners this year.

Palatine is entered in the two mile relay and medley relay at the Naperville relays this week Saturday night. The two mile relay team will be made up of Cipri, Langhoff, and Trepus with a fourth runner to be selected from among Senne, Anderson, D. Field, and Hooson. The medley team will be made up of some of the above named group with Thieme and Warder possibilities for the short sections of the race. Palatine will also enter the two mile relay at Oak Park next week Saturday.

Bisons Strong in 880

Coach Trapp has entered six boys in the Naperville and Oak Park relays. In the individual events Audis and Custer are entered in the 60 yard dash, Kiefer in the high jump, Pomplum and Steinhagen in the hurdles and J. Thomas will pole vault. Bensenville has also entered an eight lap relay team in the Naperville relays made up of Audis, Kiefer, J. Thomas and Pomplum. At Oak Park the Bisons will run in the four as well as the eight lap event.

Pomplum, Kiefer and J. Thomas were conference champs in their individual events last year. Audis is a fast junior that has transferred from an Iowa school. He has run the 100 yard dash in 10.3. Bensenville appears to have an outstanding 880 yard relay team.

Palatine Closes Record Basketball Season

Palatine's cage record for the 1940-41 season is without question the best in the history of the school and one of the better records in the state. The varsity team won 23 while losing three and the lightweights copped 14 while dropping four.

There were a lot of new Palatine records set up by the two Pirate teams. The varsity won the most games taken by a Palatine team (23). They won their second undisputed conference title and the first undefeated championship taken by a Pirate team. No other Palatine team has won undisputed championships. The team scored the most points, 1055, and Hahnfeldt set a new Palatine scoring record with 309 for the season, an average of 11.9 per game. The team had the greatest margin over their opponents with an average of 40.6 to opponents 23. Palatine set a new Northwest Conference scoring record for 10 games with 433 points. The team made the best scholastic average of any Palatine five with a record of B. Three players have been honor roll students throughout their high school course. These boys are Hollinger, Hahnfellt, and DeBerge. The team ran its string to 16 straight home victories without defeat. Only one home game has been lost in three seasons.

The Palatine lightweights won the most games of any junior team in the school's history with 14 and also had the best percentage. Howes was the first Palatine boy to lead the conference in lightweight scoring, getting 111 points in 10 games.

Win Four Trophies

The Palatine teams won the most trophies Palatine has ever taken in a season. The past high season was two trophies. The 1940-41 Pirates copped four including third at DeKalb, first in the district, and first in both divisions of the Northwest Conference.

In the four years that the present senior class has been in high school Palatine has won two varsity championships, two lightweight championships, and two district titles. Palatine teams have advanced to the regional semi-finals on three occasions in four years.

Over the four year period Palatine's varsity teams have won 72 and lost 14 for a 83.7 percentage. The lightweights have won 44 and lost 20 for a percentage of 68.3 over the same period.

The Palatine team records for all games played during the six years that McElroy has handled the varsity and lightweight teams are as follows:

Varsity

1936—Won 7, lost 11.
1937—Won 10, lost 6.

Earl Gieseke, Former Star End for Arlington, Is Successful Coach

News from Glendale, Arizona indicates that Earl Gieseke, former star athlete at Arlington Heights high school, is continuing as a coach the successes he had as a player in prep school and college. Gieseke's work as football mentor brought Glendale a record of six wins, two ties, and two defeats last fall. This was a considerable improvement over previous seasons for Glendale, which has the smallest enrollment of the schools in its league.

Placing two ends on the all-state first and second teams was probably the high point of Gieseke's work in football. Arlington fans will remember him as the outstanding end in Cardinal history. He continued his successes at Riverside Junior college in California and at the University of Arizona. After completing his college playing career at Arizona he remained as freshman coach for one season.

Gieseke's track team is apparently headed for the same kind of a record as his football team. His boys opened the season with a win over Mesa Union high school which previously had never lost to Glendale. With several stars developing on his squad Gieseke is looking forward to a good season and has hopes of qualifying several boys for the finals of the state meet.

Juniors Win Class Tourney At Arlington

Inter Class—

The annual inter-class basketball tournament at the Arlington Heights high school was won by the juniors last Friday night when they defeated the seniors by one point in a bitterly contested game. Both teams had romped to victories against freshmen and sophomores, piling up huge scores and putting on demonstrations of superior skill. The juniors scored 61 points against each of their younger opponents.

The final game was a civil war, typical of interclass basketball. Former team mates were pitted against each other, each knowing every move his opponent would make. The final score of 15-14 indicates this fact. The juniors led at the end of the first quarter but trailed thereafter until the last four minutes. Two quick baskets by Bolte and free throws by Becker and Millay put them two points in front. Weber made it a one point gap with a free throw but Hamburg hit a set shot from the free throw line to widen the margin again. The seniors scored once more with fifteen seconds to go and had a free throw on the play but missed the chance to tie.

The sophomores beat the freshmen in the preliminary game of the evening to take third place. The score was 27-15 as the freshmen gave a good account of themselves. They put on several excellent passing plays and got more than their share of rebounds. Superior teamwork and shooting ability gave the sophomores their victory.

The juniors not only won the tournament but had the high total of points with 137 in three games and had three of the five highest scorers. Becker was first with 50 points, Millay second with 35, and Bolte fourth with 29. Bolte was only one point back of Ed Mueller, a senior, who was third with 30. Tom Coleman, a sophomore, was fifth with 21. The seniors were second in team scoring with 100 points, the sophomores third with 77, while the freshmen were able to accumulate 54 in their three games.

John Harth and Tom Coleman were not allowed to play extensively because of recent severe colds. Except for the freshmen, the class teams were usually directed by their captains. This offered spectators an interesting opportunity to test the judgment of the boys in their selection of substitutes and of game strategy. Results were good in general.

All officiating was done by Bill Beckman, a recent alumnus, and by coaches Campbell and Hayes. The public was admitted to the final games free of charge in appreciation of the loyalty of fans during the season.

Northwest Coaches Plan Spring Sports

The coaches of the Northwest Conference met at the Ela high school in Lake Zurich last Friday afternoon to arrange the spring sports schedules. Other matters considered were the rating of officials for basketball next year and the making of a new basketball schedule.

The coaches went on record as unanimously favoring a complete home and home schedule of 14 conference basketball games. A committee composed of Herrmann of Wauconda, Mackey of Northbrook, and Bricker of Barrington was appointed to arrange a schedule and present it to the principals' meeting for official approval. It was also decided that every school have two officials in basketball in the case of all opponents who followed that policy. This is also subject to the approval of the principals.

Four Conference Spring Sports

The conference will engage in four sports this spring. Barrington, Bensenville, Antioch, and Palatine will engage in track with a possibility of Grant and Northbrook having a few entries in the conference meet which will be held on Friday, May 23.

Baseball will be a conference sport for five schools including Antioch, Barrington, Ela, Grant, and Northbrook. Antioch, Barrington, Bensenville, and Grant will compete in golf.

Tennis Popular Sport

Tennis will be played by all the schools except Ela though Wauconda may enter only the conference tournament. The league tournament is scheduled for Saturday, May 24 at Northbrook. In case of bad weather the affair will be shifted to Barrington. Substitute dates of Tuesday and Wednesday afternoons, May 27 and 28, are scheduled in case of bad weather.

Bisons Won Track Title

Last year Bensenville won the track title with Palatine a close second. Palatine copped the tennis championship with Barrington second. Grant was the baseball winner with Northbrook taking second honors. Bensenville had the outstanding golf team last year.

Barrington will have five men coaching spring sports, Antioch, Bensenville, and Northbrook will have three, Grant two, and Palatine, Ela, and Wauconda will each have one.
